Modules V	219
Index.....	220

This course catalogue contains the descriptions of modules taught in English and additionally a few English descriptions of modules taught in German.

Module descriptions

Modules A

Name	Ageing and social space in the welfare mix		
Module number	41101	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	150 h
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation „Sozialpolitik“ Bachelor Health Economics: compulsory module within „Gesundheitsökonomische und medizinische Grundlagen“ Bachelor Regional Studies East and Central Europe, Latin America, China: elective module within the subsidiary subject Social Sciences		
Examination Requirements	KL (60)		
Courses	lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Frank Schulz-Nieswandt		

Name	Analysis of Multivariate Data		
Module number	44101	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Multivariate data analysis in the field of economic and social sciences.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation "Quantitative Methoden der Wirtschafts- und Sozialwissenschaften".		
Examination Requirements	KL, MP		
Recommended Prior Knowledge	Statistics A and Statistics B		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...use multivariate methods for structural analysis and dimension ...reduction of data. ...use the linear regression model and the analysis of variance. ...use software.		
Contents	<ul style="list-style-type: none"> • basics of estimating and testing • correlation analysis • regression analysis • analysis of variance • factor analysis • principal component • analysis • cluster analysis 		
Information about Teaching and Learning Methods	Lecture with weekly exercises.		
Additional Information	Compulsory literature will be made public at the beginning of the term. The effective exam modalities are announced at the beginning of the course.		
Responsible Faculty Member	Dr. Oliver Grothe		

Name	Analysis of Social Structures		
Module number	06101	Workload	120 h
Credit Points	4	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	90 h
Qualifications	Knowledge of the social structure of societies		
Module is allocated to	<p>Bachelor Social Sciences: compulsory module within the main subject Social Sciences, group "Soziologie"</p> <p>Bachelor Economics: elective module within the subsidiary subject Social Sciences, group „Soziologie“</p> <p>Bachelor Business Administration, Economics, Health Economics: elective module within the specialisation "Soziologie"</p> <p>Bachelor Regional Studies East and Central Europe, Latin America, China: BA Regionalstudien Ost- und Mitteleuropa, Lateinamerika, China: elective module within the subsidiary subject Social Sciences</p> <p>Bachelor Media Studies: elective module within the subsidiary subject „Ökonomie und Soziologie der Medien“</p>		
Examination Requirements	KL (60)		
Recommended Prior Knowledge	none		
Courses	lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...identify the social structures of societies</p> <p>...recognize and assess methodical problems and prerequisites of structural analyses</p> <p>...understand the main theoretical perspectives and explanations regarding the social structure of societies</p>		
Contents	<ul style="list-style-type: none"> • theories and models of social structural analyses • population processes • social inequality (e.g. in the fields education and employment market) • lifestyles and social milieu 		
Information about Teaching and Learning Methods	<p>Lecture (possibly with group work and discussions).</p> <p>Facultative tutorials may be offered that are recommended to attend for self study purposes</p>		
Responsible Faculty Member	Prof. Dr. Michael Wagner		

Name	Anthropological foundation of social policy		
Module number	41001	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	20-30 h	Independent Studies	150-160 h
Qualifications	-		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation „Sozialpolitik“ Bachelor Health Economics: compulsory module within „Gesundheitsökonomische und medizinische Grundlagen“ Bachelor Regional Studies East and Central Europe, Latin America, China: elective module within the subsidiary subject Social Sciences		
Examination Requirements	KL (60), HA		
Recommended Prior Knowledge	none		
Courses	lecture		
Language	German		
Learning Objectives	Students... ...		
Information about Teaching and Learning Methods	-		
Responsible Faculty Member	Prof. Dr. Frank Schulz-Nieswandt		

Name	Applied Econometrics		
Module number	44104	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	45 h	Independent Studies	135 h
Qualifications	Application of Econometric methods		
Module is allocated to	Bachelor Economics: compulsory module within the methods area Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation Quantitative Methods in Economic and Social Sciences		
Examination Requirements	KL (60), so, PR, MP		
Recommended Prior Knowledge	Statistics A and Statistics B		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...analyse data by econometric methods, ...use econometric software, ...work on projects and present them.		
Contents	<ul style="list-style-type: none"> • Multiple linear regression • Model selection • Analysis of qualitative data • Analysis of time series 		
Information about Teaching and Learning Methods	The course contains practical computer exercises.		
Additional Information	<p>Literature and further material can be found on ILIAS.</p> <p>Examination requirements: Combination of 60 minutes written exam or 20 minutes oral exam (70%) and Exercises/Tests/Projects (30%)</p> <p>The effective exam modalities are announced at the beginning of the course.</p>		
Responsible Faculty Member	Univ.-Prof. Dr. Karl Mosler, Jun.-Prof. Dr. Hans Manner		

Name	Applied Macroeconomics and Public Policy		
Module number	00000	Workload	360 h
Credit Points	12	Recurrence Frequency	every summer term
Attendance	90 h	Independent Studies	270 h
Module is allocated to	BA BWL, VWL, SOWI: Wahl im WB in der Profilgruppe Macroeconomics, Money and Financial Markets		
Examination Requirements	KL (60), RE, HA		
Courses	practice, seminar, lecture		
Language	German or English		
Learning Objectives	Students... ...		
Responsible Faculty Member	Univ.-Prof. Dr. Andreas Schabert		

Name	Applied Seminar in Healthcare Management		
Module number	86007	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	Knowledge of current issues and existing solution approaches in health care system.		
Module is allocated to	Bachelor Health Economics: compulsory module within „Gesundheitsökonomische und medizinische Grundlagen“		
Examination Requirements	RE, HA, so		
Information about Examination Requirements	Hausarbeit (60%), Präsentation und Mitarbeit (20%), sonstige Leistungen (20%)		
Recommended Prior Knowledge	None		
Courses	seminar		
Language	German		
Learning Objectives	<p>Students...</p> <p>...to be able to analyze on basis of original documents, especially topics from the daily press, journal article and other communication media. Analyzing current entrepreneurial questions due to health-political progress. To do autonomous research on a given topic at a set period including the given literature. Presentation of the results via powerpoint and discussion of existing solution approaches.</p>		
Contents	<ul style="list-style-type: none"> • Current entrepreneurial questions in the field of health care system. 		
Information about Teaching and Learning Methods	As the case may be, research and presentation are accomplished in group work. Providing formal advices how to write a seminar paper in the download area.		
Additional Information	predetermined issues		
Responsible Faculty Member	Prof. Dr. Ludwig Kuntz		

Name	Aspects of Public Law		
Module number	04004	Workload	120 h
Credit Points	4	Recurrence Frequency	every winter term
Attendance	30 h	Independent Studies	90 h
Module is allocated to	Bachelor Business Administration, Economics: compulsory module within the methods area Bachelor Education		
Examination Requirements	KL (60)		
Courses	lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Otto Depenheuer		

Modules B

Name	Bachelorseminar Accounting and Taxation		
Module number	01102	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	30 h	Independent Studies	150 h
Qualifications	The acquired knowledge is relevant for creating and presenting academic papers in the field of Business Administration. Deepening of knowledge the area Accounting and Taxation; Qualifications in scientific work.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation „Ertragsteuern und Rechnungslegung“ BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Accounting BA Lehramt kleine Fachrichtung WiWi: Wahl im Schwerpunktstudium Accounting (Finanz- und Rechnungswesen) BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Accounting		
Examination Requirements	RE, HA		
Recommended Prior Knowledge	Contents of the basic modules in the major Business Administration, area „Accounting and Taxation“ is required.		
Courses	seminar		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...apply their knowledge to specific topical issues and current problems in the area of Accounting and Taxation.</p> <p>...search for and select the task- relevant scientific literature in a predetermined period of time.</p> <p>... prepare and write a scientific work dealing with an issue on their own or in teams. Consequently, they benefit from an appropriate preparation for their Bachelor thesis.</p> <p>...learn necessary skills for scientific work.</p> <p>...present their issue in a seminar talk.</p> <p>...present their results supported by PowerPoint.</p> <p>...discuss actively the presented issues of the seminar in class.</p>		
Contents	<ul style="list-style-type: none"> • Current topics of Accounting and Taxation 		
Information about Teaching and Learning Methods	The course contains elements that are conceptual and applied elements, including case studies, lectures and discussions.		
Additional Information	Mandatory literature will be announced at the beginning of the seminar and can include English literature.		
Responsible Faculty Member	Prof. Dr. Michael Overesch, Prof. Dr. Christoph Kuhner, Prof. Dr. Carsten Homburg		

Name	Bachelorseminar Corporate Development		
Module number	01106	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	The acquired knowledge is relevant for creating and presenting academic papers in the field of Business Administration. Deepening of knowledge in a specific sub-domain of Business Administration; Qualifications in scientific work.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation "Corporate Development" BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Corporate Development BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Corporate Development		
Examination Requirements	RE, HA		
Recommended Prior Knowledge	Contents of the basic modules in the major Business Administration, area „Corporate Development“ is required.		
Courses	seminar		
Language	German		
Learning Objectives	<p>Students...</p> <p>...apply their knowledge to specific topical issues and current problems in the area of Corporate Development.</p> <p>...search for and select the task- relevant scientific literature in a predetermined period of time.</p> <p>... prepare and write a scientific work dealing with an issue related to corporate development on their own or in teams. Consequently, they benefit from an appropriate preparation for their Bachelor thesis.</p> <p>...learn necessary skills for scientific work.</p> <p>...present their issue in a seminar talk.</p> <p>...present their results supported by PowerPoint.</p> <p>...discuss actively the presented issues of the seminar in class.</p>		
Contents	<ul style="list-style-type: none"> • Topics of Corporate Development 		
Information about Teaching and Learning Methods	The course contains elements that are conceptual and applied elements, including case studies, lectures and discussions.		
Additional Information	Mandatory literature will be announced at the beginning of the seminar and can include English literature.		
Responsible Faculty Member	Prof. Dr. Mark Ebers, Prof. Dr. Dr. h.c. Werner Delfmann, Prof. Dr. Thorsten Semrau, Prof. Dr. Dirk Sliwka, Prof. Dr. Bernd Irlenbusch		

Name	Bachelorseminar Finance		
Module number	01103	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	The acquired knowledge is relevant for creating and presenting academic papers in the field of Business Administration. Deepening of knowledge in Finance; Qualifications in scientific work.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation "Finance I" und "Finance II" BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Finance BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Finance BA Lehramt kleine Fachrichtung WiWi: Wahl im Schwerpunktstudium Finance		
Examination Requirements	RE, HA, so		
Recommended Prior Knowledge	Basic knowledge in Finance		
Courses	seminar		
Language	German or English		
Learning Objectives	Students... ...independently engage in up-to-date topics within the field of finance and apply obtained knowledge from previous studies. ...research, select and synthesise relevant academic literature. ...develop an scientific paper and obtain a suitable preparation regarding their bachelor thesis. ...present their results and discuss with fellow participants. ...		
Contents	<ul style="list-style-type: none"> • Current topics in Finance 		
Information about Teaching and Learning Methods	Supervision by staff members of the departments assists structuring the topic and the application of previous acquired finance knowledge. The presentation and discussion of the paper within the block course expands the independent work regarding a scientific research question.		
Responsible Faculty Member	Prof. Dr. Dieter Hess		

Name	Bachelorseminar Marketing		
Module number	01104	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	120-0 h
Qualifications	The acquired knowledge is relevant for creating and presenting academic papers in the field of Business Administration. Deepening of knowledge in Marketing; Qualifications in scientific work.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation "Marketing" BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Marketing BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Marketing BA Lehramt kleine Fachrichtung WiWi: Wahl im Schwerpunktstudium Marketing (Produktion, Logistik, Absatz)		
Examination Requirements	RE, HA, so		
Recommended Prior Knowledge	Contents of the modules Marketing and Channel Management are expected.		
Courses	seminar		
Language	German or English		
Learning Objectives	Students... ...independently engage in up-to-date topics within the field of marketing or retailing and apply obtained knowledge from previous studies. ...research, select and synthesize relevant academic literature. ...develop a scientific paper and obtain a suitable preparation regarding their bachelor thesis. ...present their results and discuss with fellow participants.		
Contents	<ul style="list-style-type: none"> • Current topics in marketing and retailing 		
Information about Teaching and Learning Methods	The independent development of a project within a group is key element of the seminar. Supervision by staff members of the departments assists structuring the topic and the application of previous acquired marketing knowledge. The presentation and discussion of the paper within the block course expands the independent work regarding a scientific research question.		
Responsible Faculty Member	Prof. Dr. Franziska Völckner, Prof. Dr. Marc Fischer, Prof. Dr. Werner Reinartz		

Name	Bachelorseminar Supply Chain Management		
Module number	01105	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	Acquired knowledge is relevant for the self-dependent generation and presentation of a scientific report in the field of business studies.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation "Supply Chain" BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Supply Chain BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Supply Chain BA Lehramt kleine Fachrichtung WiWi: Wahl im Schwerpunktstudium Supply Chain(Produktion, Logistik, Absatz)		
Examination Requirements	RE, HA, FS		
Recommended Prior Knowledge	Contents of the basic modules in the field of "Supply Chain Management" are required ("Operations Management" and "Produktion und Logistik").		
Courses	seminar		
Language	German or English		
Learning Objectives	Students... ...LS Tempelmeier: Students become familiar with methods aiming at analysing current academic publications. ...LS Thonemann: The students familiarize with the core planning and optimization tasks of a supply chain manager and learn how to use a supply chain software at an example. The course focuses on teaching students how to write a scientific report and how to present their results to an audience.		
Contents	<ul style="list-style-type: none"> • LS Tempelmeier: We discuss changing topics in the fields of production, logistics, Supply Chain Management and Operations Research. • LS Thonemann: We discuss main supply chain planning problems in the fields of network design, transportation or distribution planning with the help of a supply chain software. In a case study, the students independently optimize a given supply chain from practice. The students compose a scientific report of their results and generate a presentation. 		
Information about Teaching and Learning Methods	The course contains conceptual and applied elements, including case studies, presentations and discussions.		
Additional Information	Set books are announced each semester and can contain German and English texts.		
Responsible Faculty Member	Prof. Dr. Horst Tempelmeier, Univ.-Prof. Dr. Ulrich W. Thonemann		

Name	Bank Management		
Module number	16001	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Appliance of core concepts in investment appraisal, finance, cost accounting and accounting related to bank specific questions.		
Module is allocated to	BA BWL, VWL, SOWI: elective in free selectable area of profile group Finance I and II BA GESÖK, WINFO: elective in free selectable area of profile group Finance BA LA: Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium B – Profilgruppe Finance BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium B – Profilgruppe Finance BA LA: Kleine Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium – Profilgruppe Finance (Finanz- und Rechnungswesen)		
Examination Requirements	KL		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...have an overview on the German banking market, the most relevant institutional framework requirements and banking activities.</p> <p>...describe core features of bank accounting, bank cost accounting and fundamentals of risk-return-management.</p> <p>...analyze the content of bank balance sheets.</p> <p>...apply the specifics in bank accounting to concrete questions and problems.</p> <p>...calculate the regulatory equity and capital requirements for risk positions.</p> <p>...calculate the costs of bank products such as deposits and credits.</p>		
Contents	<ul style="list-style-type: none"> • Banking market • Bank accounting • Bank regulation • Bank cost accounting • Risk-return-management 		
Additional Information	Reading requirements will be announced at the beginning of each semester.		
Responsible Faculty Member	Prof. Dr. Thomas Hartmann-Wendels		

Name	Basic Seminar in Healthcare Management		
Module number	86006	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	Knowledge of current issues and existing solution approaches in the area of hospital management.		
Module is allocated to	Bachelor Health Economics: compulsory module within „Gesundheitsökonomische und medizinische Grundlagen“		
Examination Requirements	RE, HA, so		
Information about Examination Requirements	Hausarbeit (60%), Präsentation und Mitarbeit (20%), sonstige Leistungen (20%)		
Recommended Prior Knowledge	None		
Courses	seminar		
Language	German		
Learning Objectives	Students... ...analyzing on basis of a journal article containing current issues of hospital management. To do autonomous research on a given topic at a set period including the given article. Presentation of the results via powerpoint and discussion of existing solution approaches.		
Contents	<ul style="list-style-type: none"> • Currents questions of hospital management 		
Information about Teaching and Learning Methods	Introduction of “how to write a seminar paper”. As the case may be, research and presentation are accomplished in group work .Providing formal advices “how to write a seminar paper” in the download area. Participation in discussion is required.		
Additional Information	Predetermined issues. A copy of the appropriate article (if necessary further literature) is going to be provided.		
Responsible Faculty Member	Prof. Dr. Ludwig Kuntz		

Name	Basic Seminar in Theoretical Computer Science		
Module number	75101	Workload	90 h
Credit Points	3	Recurrence Frequency	every summer term
Attendance	20 h	Independent Studies	70 h
Qualifications	Best practice of scientific work and independent exploration of a field of knowledge		
Module is allocated to	B.Sc. Information Systems: compulsory module within the specialisation Theoretical Computer Science		
Examination Requirements	RE		
Information about Examination Requirements	The participant prepares a project report and/or term paper and gives an oral presentation.		
Recommended Prior Knowledge	Contents of the Programming Course, Foundations of Computer Science 1 and 2 and the Practical Course on Programming		
Courses	seminar		
Language	German		
Learning Objectives	Students... ...learn fundamentals and best practice of scientific work, are able to expand their knowledge in the area of computer science via independent work and to present their results in a convincing way.		
Contents	<ul style="list-style-type: none"> The proseminar is an introduction into scientific work. The participants get to know a specific field of computer science by developing a small project or term paper and presenting it to their peers. 		

Name	Basic principles of health economics		
Module number	38001	Workload	180 h
Credit Points	6	Recurrence Frequency	every second term
Attendance	45 h	Independent Studies	135 h
Qualifications	Working in the economic policy consulting field (ministries, research institutes, public institutions), media, associations, foundations, health insurances, institutions in the health sector		
Module is allocated to	Bachelor Economics, Bachelor Business Administration, Bachelor Social Sciences: elective module within the specialisation „Constitutional Economics and Economic Political Consulting”. Bachelor Health Economics: elective module within major subject: Basics in health Economics and Medicine		
Examination Requirements	KL (60)		
Recommended Prior Knowledge	None. It is highly recommended to have studied “Principles of Microeconomics” (Grundzüge der Mikroökonomik) and “Principles of Macroeconomics” (Grundzüge der Makroökonomik).		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...identify problems in the health care system and work out the need for regulation. ...develop criteria to evaluate different reform options. ...analyse the interaction between public and private insurances and the health care providers. ...analyse current political debates about reform options for the German health care system. ...discuss about these reform options and enhance their ability to take part in public discussions and reform debates. ...discuss objective and problem-oriented		
Contents	<ul style="list-style-type: none"> • Theoretical analysis of the health insurance market • Institutional setting of the German health insurance market • Theoretical analysis of the health care provision market • Institutional setting of the German health care provision market • Instruments of health policy • Comparison of possible options for the organisation of a health care system 		
Information about Teaching and Learning Methods	Lecture and two-week exercise sessions		
Additional Information	This module is also module within the Bachelor Health Economics.		
Responsible Faculty Member	Dr. Steffen J. Roth, Univ.-Prof. Achim Wambach, Ph.D.		

Name	Basics of Scientific Working in the Social Sciences		
Module number	13008	Workload	240 h
Credit Points	8	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	180 h
Qualifications	Preparation, conduct and presentation of research in the Social Sciences		
Module is allocated to	Bachelor Social Sciences: elective course within the major subject empirical social research Bachelor Macroeconomics: elective module within the social sciences minor, group sociology		
Examination Requirements	KL (90), so		
Information about Examination Requirements	Other examinations: exercises (You will get a grade for your exam, but the exercises will be either “passed” or “not passed”. In order to be able to take part in the exam the exercises have to be passed.)		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...are acquainted with the basic techniques of social-scientific work.</p> <p>...know the formal scheme of social-scientific research papers.</p> <p>...are able to search literature and data in specific databases as well as evaluate the search result as to quality.</p> <p>...are able to summarize articles and write synopses.</p> <p>...are able to quote scientific articles according to the formal requirements.</p> <p>...are able to illustrate data in graphs and charts.</p> <p>...are able prepare and give presentations.</p>		
Contents	<ul style="list-style-type: none"> • Infrastructure of the Social Sciences • Literature and data search • Formal scheme and layout of articles in the Social Sciences • Techniques of scientific quoting • Illustration of graphs and charts • Preparation of presentations • Presentation techniques 		
Information about Teaching and Learning Methods	Lecture and tutorial with assignments, group work, presentations and discussion		
Additional Information	Registration for this course ensues via KLIPS. Registration for the written examination has to be directed at the respective examination office. Required readings will be announced at the beginning of the term.		
Responsible Faculty Member	Prof. Dr. Karsten Hank		

Name	Behavioral Decision Theory		
Module number	14302	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Understanding and being able to apply the central results and concepts of Decision Theory with a special emphasis on psychological foundations and behavioral biases.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: Elective module within the specialisation Psychoeconomics		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	Basic knowledge of microeconomics at the level of "Grundzüge der Mikroökonomie".		
Courses	practice, lecture		
Language	English		
Learning Objectives	<p>Students...</p> <p>...are capable of understanding formal concepts and follow formal arguments.</p> <p>...are able to apply elementary microeconomics concepts.</p> <p>...are capable of reflecting critically.</p>		
Contents	<ul style="list-style-type: none"> • Normative vs. Descriptive Decision Theory • Expected Utility and Subjective Expected Utility • Framing, the Endowment Effect, and Other Problems • Decisions Under Risk and Prospect Theory • Intertemporal Decisions and Quasihyperbolic Discounting • Preference Reversals • Ambiguity • Neuroeconomics 		
Information about Teaching and Learning Methods	E-Learning Units (IILIAS) may be provided.		
Additional Information	Additional information will be available in KLIPS.		
Responsible Faculty Member	Univ.-Prof. Dr. Carlos Alós-Ferrer		

Name	Business Ethics		
Module number	29102	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Reflection on ethical behavior in business		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation Corporate Development BA Lehramt berufliche Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Corporate Development BA Lehramt große Fachrichtung WiWi: Wahl im Schwerpunktstudium B in der Profilgruppe Corporate Development		
Examination Requirements	KL, so		
Courses	practice, lecture		
Language	English		
Learning Objectives	Students... ...acquire insights into essential parts of business ethics ...are guided to critically reflect their own role in a company ...develop visions of responsible behavior in business ...apply the learned material to concrete case studies		
Contents	<ul style="list-style-type: none"> • Values and the "Good Life" • Ethical approaches to business: Utilitarianism, Deontology, Virtue Ethics • Ethical decision making of individuals: heuristics and biases, lying and deception • Ethical issues inside the organization: trust and reciprocity, whistle-blowing, employer-employee relationship, fairness and justice • Ethics in the market place: ethical aspects of advertising, marketing, and sales, fair pricing, competition and corruption, suppliers and enforcement of ethical standards 		
Information about Teaching and Learning Methods	Interactive discussions of case studies

In general the courses of this module will be in English (see KLIPS). Required readings will be announced in KLIPS or on our homepage. The courses of this module will potentially be hold only in the first or in the second half of the semester (see KLIPS).		
Responsible Faculty Member	Prof. Dr. Bernd Irlenbusch		

Name	Business Taxation		
Module number	19002	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Fundamentals of business taxation to prepare students to work in tax consulting or in finance and accounting area.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation Corporate taxes		
Examination Requirements	KL		
Recommended Prior Knowledge	It is recommended to attend or to have attended the lecture „Fundamentals of Taxation“.		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <ul style="list-style-type: none"> ...gain a basic knowledge of the German business tax system ...deal with the appropriate sources of law, verdicts and guidelines ...discuss business situations from a tax perspective ...present the tax effects of complicated business processes ...practice techniques to solve tax cases and questions ...apply their acquired knowledge on cases and transfer it to new situations ...evaluate tax effects on business decisions ... 		
Contents	<ul style="list-style-type: none"> • Taxation of business owners and companies dependent upon their legal status • Determination of the taxable income • Gift and inheritance tax • Influence of tax on business decisions 		
Additional Information	The bibliography is given in the lecture.		
Responsible Faculty Member	Prof. Dr. Michael Overesch		

Modules C

Name	Capital Investment and Financing		
Module number	01004	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Business activities which require an analysis of capital investment and financing alternatives.		
Module is allocated to	Bachelor Business Administration: elective module within the main subject Business Administration Bachelor Economics, Social Sciences: elective module within the subsidiary subject Business Administration Bachelor Health Economics: elective module within the subsidiary subject Economic Basics Bachelor Information Systems: elective module within the subject area Business Administration		
Examination Requirements	KL (60)		
Courses	practice, tutorial, lecture		
Language	German		
Learning Objectives	Students... ...learn how to evaluate capital budgeting using static and dynamic methods under certainty. ...consider chances and risks when applying different capital budgeting methods in order to analyse fundamental financial decisions. ...determine the capital necessary for given investment strategies. ...describe the different types of financing. ...estimate and discuss selected forms of financing. ...enhance their understanding of the concepts and skills acquired in the lecture by solving problem sets and preparing case studies.		
Contents	<ul style="list-style-type: none"> • Conceptual and decision-theoretical key questions • Capital budgeting methods under certainty • Perspective of capital budgeting methods under uncertainty • Debt financing • Self-financing • Financial planning • Planning of capital requirements on a cash and balance basis • Risk-return-profile 		
Information about Teaching and Learning Methods	Facultative tutorials can be offered and are recommended to attend for self study purpose		
Additional Information	Classes may be taught exclusively in the first or the second part of the term (see KLIPS). Required reading will be announced via KLIPS.		
Responsible Faculty Member	Prof. Dr. Alexander Kempf, Prof. Dr. Thomas Hartmann-Wendels, Prof. Dr. Dieter Hess, Prof. Dr. Heinrich R. Schradin		

Name	Channel Management		
Module number	07001	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Management positions in marketing, sales, and distribution of manufacturing-, retailing-, and services companies.		
Module is allocated to	Bachelor Business Administration: elective module within the main subject Business Administration Bachelor Economics, Social Sciences: elective module within the subsidiary subject Business Administration Bachelor Health Economics: elective module within the subsidiary subject Economic Basics Bachelor Information Systems: elective module within the subject area Business Administration		
Examination Requirements	KL (60)		
Courses	practice, lecture		
Language	English		
Learning Objectives	Students... ...discuss the issues of market access using different market and distribution channels. ...systematise the options of channel design. ...describe the theoretical background of channel management. ...analyse channel performance. ...discuss the consequences of conflict between channel partners. ...systematise new (multiple and technology based) channel options.		
Contents	<ul style="list-style-type: none"> • Channel design process • Implementation and management of a channel design • Insights into specific channel institutions 		
Information about Teaching and Learning Methods	The pedagogy of the course will entail both conceptual and applied elements, including case studies, lectures, and discussions in class. Facultative tutorials can be offered and are recommended to attend for self study purpose		
Additional Information	The courses and exams of this module will potentially be hold only in the first or in the second half of the semester (see KLIPS). Relevant readings will be announced in class.		
Responsible Faculty Member	Prof. Dr. Werner Reinartz		

Name	Civil Property Law		
Module number	04002	Workload	120 h
Credit Points	4	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	90 h
Module is allocated to	Bachelor Business Administration, Economics: compulsory module within the methods area Bachelor Information Systems: elective module within the main subject Business Administration		
Examination Requirements	KL (60)		
Courses	lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Martin Henssler		

Name	Clinical Trials: Applications		
Module number	88005	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Consultation of decisive committees in business concerns, health service and political institutions (good knowledge of English desirable)		
Module is allocated to	Bachelor Health Economics: Choice in the electoral area of the profile group: Evidence-based Medicine/Health Technology Assessment		
Examination Requirements	KL		
Recommended Prior Knowledge	Evidence-based Medicine I		
Courses	lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...formulate relevant questions for medical decisive situations.</p> <p>...value the formal construction of studies.</p> <p>...extract the relevant information from a publication.</p> <p>...recognize different forms of bias.</p> <p>...rate study quality using different assessment tools.</p> <p>...identify the rules and "pitfalls" of scientific publishing</p>		
Contents	<ul style="list-style-type: none"> • Study forms and study planning • Assessment of studies • Summary of studies for specific clinical question 		
Information about Teaching and Learning Methods	Lecture and tutorial using examples of therapy studies of different methodical quality

Qualifications	Development of economic theory concepts		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: selectable in specialization "Managerial Economics"		
Examination Requirements	KL, RE, HA		
Information about Examination Requirements	Presentation (50%) and term paper (50%)		
Courses	seminar		
Language	German or English		
Learning Objectives	Students... ...learn selected concepts of economic theory ...are introduced to current research in economic theory, ...present and discuss the insights they have gained		
Contents	<ul style="list-style-type: none"> • Concepts of economic theory • Current research in economic theory 		
Additional Information	Compulsory reading will be announced at the beginning of the course		
Responsible Faculty Member	Univ.-Prof. Achim Wambach, Ph.D.		

Name	Computer Science I		
Module number	73002	Workload	270 h
Credit Points	9	Recurrence Frequency	every summer term
Attendance	90 h	Independent Studies	180 h
Qualifications	Conceptual design, analysis and implementation of algorithms		
Module is allocated to	Bachelor Information Systems: compulsory module within the subject area Mathematics and Computer Science		
Examination Requirements	KL(180)		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...The participants are able to design and implement elementary algorithms. Further, they know how to analyze their correctness and running time with respect to the underlying data structures..		
Contents	<ul style="list-style-type: none"> • First, the course provides an introduction to the field of computer science and the construction and functionality of computers. Then, fundamental knowledge about algorithms and data structures is presented. The general design and analysis of algorithms is exemplified by sorting and searching techniques as well as elementary graph algorithms. The elementary data structures introduced cover, e.g., trees, graphs and union-find structures. It is also possible that preliminary graph algorithms are considered in the course. 		
Information about Teaching and Learning Methods	Successful learning and understanding of the contents of this course cannot be achieved by attendance and theoretical considerations only. Hence, the attendance and self-responsible preparation of the exercises is mandatory.		
Responsible Faculty Member	Institut für Informatik		

Name	Computer Science II		
Module number	73003	Workload	270 h
Credit Points	9	Recurrence Frequency	every winter term
Attendance	90 h	Independent Studies	180 h
Qualifications	Knowledge of the logical basis of computations and their electronic realization as well as the theoretical foundations of computability and complexity		
Module is allocated to	Bachelor Information Systems: compulsory module within the subject area Mathematics and Computer Science		
Examination Requirements	KL(180)		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...earn profound background and application knowledge on fundamental topics of computer science, especially concerning its logical and theoretical basis.		
Contents	<ul style="list-style-type: none"> The first part of the lecture deals with encoding and decoding, Boolean functions and combinatorial/sequential circuits as the basis of computer architectures, followed by introductions to formal languages and their translation via compilers, as well as operating systems and computer networks. The concluding theoretical part provides an introduction to the foundations of computability and complexity theory. 		
Information about Teaching and Learning Methods	Successful learning and understanding of the contents of this course cannot be achieved by attendance and theoretical considerations only. Hence, the attendance and self-responsible preparation of the exercises is mandatory.

Learning Objectives	Students... ...Students classify the actors of the trade fair industry and analyze the interdependencies; discuss optimal trade fair management from a trade fair company's point of view and apply theories in order to derive implications for trade fair companies.		
Contents	<ul style="list-style-type: none"> Goals and strategies of trade fair companies 		
Information about Teaching and Learning Methods	Discussions; workshops; presentations by students; field trips; several guest speakers		
Responsible Faculty Member	Prof. Dr. Dr. h.c. Werner Delfmann, Prof. Dr. Franziska Völckner, Dr. Christian Glasmacher, Feriha Zingal		

Name	Current Topics in Media Management		
Module number	25102	Workload	180 h
Credit Points	6	Recurrence Frequency	irregular
Attendance	30 h	Independent Studies	150 h
Qualifications	In-depth insights into selected, current media and technology management topics		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Media Management		
Examination Requirements	KL, RE, so		
Courses	seminar		
Language	German or English		
Learning Objectives	Students... ...analyse current issues and topics in the field Media Management. ...discuss different approaches of Media Management ...identify problems in Media Management		
Contents	<ul style="list-style-type: none"> • Details differ from semester to semester 		
Information about Teaching and Learning Methods	A mixture of lecturing, group work, and interactive elements.		
Additional Information	www.mtm.uni-koeln.de		
Responsible Faculty Member	Prof. Dr. Claudia Loebbecke, M.B.A.		

Name	Current Topics of Supply Chain Management		
Module number	27104	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	The ability to plan, optimize and manage complex supply chains.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Supply Chain Management		
Examination Requirements	KL, so		
Information about Examination Requirements	Written exam: 60-90 minutes, short presentation on a selected SCM topic in class and class participation		
Courses	tutorial, lecture		
Language	English		
Learning Objectives	<p>Students...</p> <ul style="list-style-type: none"> ...apply concepts to plan, steer and optimize global supply chains ...identify common problems in a supply chain (such as the bullwhip ...effect) and develop counter measures ...critically reflect modern collaboration concepts and assess their ...feasibility and implementation hurdles ...get familiar with the success factors of a supply chain transformation ...get to know the dynamics of a supply chain by taking the role of a ...supply chain manager in a touch and feel game 		
Contents	<ul style="list-style-type: none"> • Inventory and demand management • Supply chain configuration und design of logistics networks • Lean management in supply chains • Supply chain collaboration • Supply chain transformation 		
Information about Teaching and Learning Methods	The course will be held in English. The students will apply the above-mentioned concepts to real-life situations by means of case studies and games. Examples from practice and external lectures will demonstrate how companies successfully apply supply chain management.		
Additional Information	Required readings will be announced at the beginning of the term.		
Responsible Faculty Member	Univ.-Prof. Dr. Ulrich W. Thonemann		

Name	Current questions of Economic Policy		
Module number	15301	Workload	180 h
Credit Points	6	Recurrence Frequency	every term
Attendance	30 h	Independent Studies	150 h
Qualifications	Working in the economic policy consulting field (ministries, research institutes, public institutions), media, associations, foundations		
Module is allocated to	Bachelor Economics, Bachelor Business Administration, Bachelor Social Sciences: elective module within the specialisation "Constitutional Economics and Economic Political Consulting".		
Examination Requirements	RE, HA, so		
Courses	seminar		
Language	German		
Learning Objectives	<p>Students...</p> <p>...analyse an area of economic policy, learn to develop an independent academic analysis.</p> <p>...study the relevant literature.</p> <p>...apply their knowledge to a current problem of economic policy.</p> <p>...evaluate different reform options.</p> <p>...reflect critically and independently the relevant literature.</p> <p>...acquire experience in researching literature, enhance their ability to work methodically.</p> <p>...conceive and write an essay.</p> <p>...analyse current reform options.</p> <p>...prepare and hold independently a presentation and discuss the relevant questions in the group.</p>		
Contents	<ul style="list-style-type: none"> Depending on the current relevant questions in the field of economic policy. 		
Information about Teaching and Learning Methods	Students interested in writing their final thesis about an issue of economic policy are recommended to take part in the seminar.		
Additional Information	Please pay attention to the announcements on the homepage of the Institute for Economic Policy: http://www.iwp.uni-koeln.de/		
Responsible Faculty Member	Dr. Steffen J. Roth, Univ.-Prof. Achim Wambach, Ph.D.		

Modules D

Name	Database Systems		
Module number	71001	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Module is allocated to	<p>Bachelor Information Systems: compulsory module within the main subject Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation "Information Systems – Development"</p> <p>Bachelor Business Administration, Economics, Social Sciences, Health Economics: elective module within the specialisation "Media Management"</p> <p>BA LA: Kleine Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium</p> <p>BA LA: Kleine Berufliche Fachrichtung Wirtschaftsinformatik: Pflicht im Schwerpunktstudium</p>		
Examination Requirements	KL (90), so, MP (20)		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Fachbereich Wirtschaftsinformatik		

Name	Decision Analysis		
Module number	07005	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Students learn to describe and apply the basic models and methods of prescriptive decision analysis.		
Module is allocated to	<p>Bachelor Business Administration: elective module within the main subject Business Administration</p> <p>Bachelor Economics, Social Sciences: elective module within the subsidiary subject Business Administration</p> <p>Bachelor Health Economics: compulsory module within the main subject "Gesundheitsökonomische und medizinische Grundlagen"</p> <p>Bachelor Information Systems: elective module within the subject area Business Administration</p> <p>Bachelor Regional Studies China: elective module within the subsidiary subject Business Administration</p> <p>Bachelor Media Management: elective module within the subsidiary subject Media Management</p> <p>BA LA: Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium A</p> <p>BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium A</p>		
Examination Requirements	KL (60)		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...explain the fundamental principles of making a rational decision.</p> <p>...structure and distinguish complex decision situations in regard to several characteristics.</p> <p>...describe the theoretical requirements for the use of methods for decision making.</p> <p>...make practical examples.</p> <p>...determine optimal decisions by use of formal methods.</p>		
Contents	<ul style="list-style-type: none"> • Structuring of decision problems. • Generation of target systems and alternatives and there selection. • Making decisions under certainty and uncertainty. • Making decisions with and without complete information. • Making decisions with several aims. • Formation of probabilities. 		
Information about Teaching and Learning Methods	Presence Time of 60h is composed of: 30 h lecture, 15h exercise and 15h tutorial.		
Additional Information	<p>Basic literature:</p> <p>F. Eisenführ/M. Weber/T. Langer: Rationales Entscheiden, 5. Aufl., Berlin u.a. (Springer), 2010</p> <p>Additional Literature will be announced at the beginning of the term.</p>

Modules E

Name	Economic Policy		
Module number	08001	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Conceptual work and consulting at institutions responsible for economic-political decisions and conceptual work for research institutes.		
Module is allocated to	Bachelor Economics: elective module within the main subject Economics Bachelor Business Administration, Social Sciences: elective module within the subsidiary subject Economics Bachelor Regional Studies East and Central Europe, Latin America, China: elective module within the subsidiary subject Economics		
Examination Requirements	KL (90)		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...analyse perfect and imperfect markets by means of simple static models.</p> <p>...analyse problems of economic policy and welfare policy by means of dynamic models.</p> <p>...transfer theoretical concepts to applied problems in economic policy.</p> <p>...question and evaluate economic policy measures with their newly learned background in theory of economic policy.</p> <p>...discuss current problems in economic policy.</p>		
Contents	<ul style="list-style-type: none"> • Efficiency • Risk theory • Social welfare functions • Distribution • Market failure, in particular asymmetric information • Life cycle models • Social insurances (retirement, unemployment, health) • Current discussion in economic policy 		
Information about Teaching and Learning Methods	Exercise in team work		
Additional Information	Lecture notes in English		
Responsible Faculty Member	Univ.-Prof. Dr. Alexander Ludwig		

Name	Economic Psychology		
Module number	52017	Workload	240 h
Credit Points	8	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	180 h
Qualifications	Knowledge of concepts and empirical findings in economic psychology.		
Module is allocated to	Bachelor Social Sciences: elective module within the subsidiary subject Social Psychology Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Economic Psychology Bachelor Regional Studies East and Central Europe, Latin America: elective module within the subsidiary subject Social Sciences		
Examination Requirements	KL (60)		
Courses	lecture		
Language	English		
Learning Objectives	Students... ...know fundamental theories in economic psychology. ...discuss empirical methods and findings in the area of economic ...psychology. ...know the current development of economic psychology re- ...search ...adopt psychological theories to current economical contexts		
Contents	<ul style="list-style-type: none"> • Theories and empirical findings in economic psychology, e.g., economic decisions, consumer behavior, • advertising, tax compliance, investment 		
Additional Information	Required reading will be announced in the introductory session.		
Responsible Faculty Member	Univ.-Prof. Dr. Detlef Fetchenhauer, Prof. Erik Hölzl		

Name	Economic aspects of the dual broadcasting system		
Module number	15201	Workload	180 h
Credit Points	6	Recurrence Frequency	irregular
Attendance	60 h	Independent Studies	120 h
Qualifications	knowledge of institutions and processes in media markets		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation Media Economics Bachelor Media Sciences: compulsory module within the subsidiary subject "Ökonomie und Soziologie der Medien"		
Examination Requirements	KL		
Recommended Prior Knowledge	basic knowledge of microeconomics		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...solve concrete problems with the help of economic concepts. ...deepen their knowledge of problems in media markets. ...learn optimal strategies and organization forms in media markets by case studies and enhance their analytical skills. ...analyze the impact of digitalization on competition in media markets. ...improve their ability to abstract by solving application-oriented exercises.		
Contents	<ul style="list-style-type: none"> • microeconomics, • industrial organization • business environment of media firms 		
Additional Information	The course will take place every week during the lecture period. Required reading will be announced at the beginning of the term.		
Responsible Faculty Member	Univ.-Prof. Dr. Johannes Münster		

Name	Economics, Strategy and Management		
Module number	15101	Workload	180 h
Credit Points	6	Recurrence Frequency	every second term
Attendance	30 h	Independent Studies	150 h
Qualifications	All fields, in which an analysis of basic economic problems is needed.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: Elective module within the specialisation Managerial Economics		
Examination Requirements	KL, RE, HA		
Recommended Prior Knowledge	Basic skills in mathematics and game theory		
Courses	seminar		
Language	English		
Learning Objectives	<p>Students...</p> <p>...learn selected economic concepts.</p> <p>...apply these concepts to study problems from the field of management.</p> <p>...are introduced to current research in economics and management.</p> <p>...present and discuss the insights they have gained.</p>		
Contents	<ul style="list-style-type: none"> • Economic concepts • Current research in economics and management 		
Information about Teaching and Learning Methods	Students actively participate in the discussions after the presentations.		
Additional Information	Compulsory reading will be announced at the beginning of the course.		
Responsible Faculty Member	Univ.-Prof. Dr. Oliver Gürtler		

Name	Elections and Voters		
Module number	05213	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h

Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. André Kaiser		

Name	Empirical Methods for Economics and Business		
Module number	44105	Workload	180 h
Credit Points	6	Recurrence Frequency	irregular
Attendance	60 h	Independent Studies	120 h
Qualifications	Basic methods and tools used for empirical studies in economics and business.		
Module is allocated to	BA Business Administration, BA Economics, BA Social Sciences: elective module within the specialisation "Quantitative Methoden der Wirtschafts- und Sozialwissenschaften"		
Examination Requirements	KL (60), MP		
Recommended Prior Knowledge	Statistics A and Statistics B		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	Students... ...learn basic statistical and econometric procedures for data collection, data processing, data analysis and forecasts, ...apply the procedures using standard software packages.		
Contents	<ul style="list-style-type: none"> • Data collection • Data processing • Input-output analysis • Regressionanalysis: An example for cross sectional data • Principles of forecasting • Logit models • Methodology: Development of Econometrics 		
Information about Teaching and Learning Methods	In an accompanying tutorial, students will practice the use of the techniques with standard software for statistics and econometrics.		
Additional Information	Written exam (60 min) or oral exam (20 min). The effective exam modalities are announced at the beginning of the course. A reading list of relevant literature will be provided at the beginning of the course.		
Responsible Faculty Member	Univ.-Prof. Dr. Roman Liesenfeld		

Name	Energy Markets and Regulation		
Module number	35002	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Students get prepared for an academic career, activities in consulting, associations, administrations and many more in the energy industry.		
Module is allocated to	BA Business Administration, BA Economics, BA Social Sciences: elective module within the energy economics specialisation		
Examination Requirements	KL, RE, HA, MP		
Information about Examination Requirements	Written exam (60 minutes) or oral exam (15 – 45 minutes) or presentation (1/3 of final mark) and paper (2/3 of final mark))		
Recommended Prior Knowledge	Students are expected to have completed at least one module in microeconomics. Basic understanding of industrial economics is recommended.		
Courses	practice, lecture		
Language	English		
Learning Objectives	<p>Students...</p> <p>...become acquainted with the technical and economical fundamentals of the energy industry.</p> <p>...gain an insight into the structure of power markets.</p> <p>...will be able to understand the development of prices on power markets.</p> <p>...analyse the fundamentals of different levels of the power system value chain.</p> <p>...discuss price and volume of international energy supply and demand.</p> <p>...analyse the economics of transmission networks.</p> <p>...discuss different types of government intervention and regulation of energy transmission systems.</p>		
Contents	<ul style="list-style-type: none"> • Technical background • Energy markets • Power system economics • Transmission networks • Regulation 		
Information about Teaching and Learning Methods	Lectures, classes, class room experiments		
Additional Information	The courses will be held every week during the lecture period. Required reading will be announced at the beginning of the term. This module is equivalent to the former module “Grundlagen der Energiepolitik”		
Responsible Faculty Member	Prof. Dr. Felix Höffler		

Name	Energy Markets and Regulation (Bachelor)		
Module number	00000	Workload	360 h
Credit Points	12	Recurrence Frequency	every winter term
Attendance	90 h	Independent Studies	270 h
Module is allocated to	BA BWL, VWL, SOWI: Wahl im WB in der Profilgruppe Energiewirtschaftslehre		
Examination Requirements	KL (60), RE, HA		
Courses	practice, seminar, lecture		
Language	English		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Felix Höffler		

Name	Energy and Environmental Economics		
Module number	35001	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Students get prepared for an academic career, activities in consulting, associations, administrations and many more in the energy industry.		
Module is allocated to	BA Business Administration, BA Economics, BA Social Sciences: elective module within the specialisation Energy Economics		
Examination Requirements	KL, RE, HA, MP		
Information about Examination Requirements	Written exam: 60 minutes or oral exam (15 – 45 minutes) or presentation (1/3 of final mark) and paper (2/3 of final mark)		
Recommended Prior Knowledge	Students are expected to have completed at least one module in microeconomics. Basic understanding of industrial economics is recommended.		
Courses	practice, lecture		
Language	English		
Learning Objectives	<p>Students...</p> <p>...become acquainted with the technical and economic fundamentals of the energy industry.</p> <p>...understand the structure of an energy balance.</p> <p>...familiarise themselves with the fundamental concepts and ...models of the economics of non-renewable resources.</p> <p>...analyse the importance of capital investment and technical ...progress in the energy sector for the availability of energy ...resources.</p> <p>...analyse the development of global energy consumption and energy-related emissions.</p> <p>...analyse international instruments for climate protection from the economic point of view.</p>		
Contents	<ul style="list-style-type: none"> • Technical background • Energy balances • Energy resources • Development of global energy consumption • Instruments for climate protection 		
Information about Teaching and Learning Methods	Lectures, classes, preparation and discussion of research papers		
Additional Information	The courses will be held every week during the lecture period. Required reading will be announced at the beginning of the term. This module is equivalent to the former module “Grundlagen der Energiemärkte”		
Responsible Faculty Member	Univ.-Prof. Dr. Marc Oliver Bettzüge		

Name	Evidence-based Medicine I

Credit Points	6	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	120 h
Qualifications	Fundamentals of the most important taxes for the companies and their investors to prepare students to work in tax consulting or in finance and accounting area.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation Personal and Corporate Income Taxes Bachelor Business Administration, Economics, Social Sciences, Information Systems: elective module within the specialisation Business taxation		
Examination Requirements	KL		
Recommended Prior Knowledge	None		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...gain a basic insight into the most important taxes for the companies and their investors ...discuss business situations from a tax perspective ...deal with the appropriate sources of tax law and tax guidelines ...use procedures to find a practical solution for taxation cases and questions and transfer them to new situations		
Contents	<ul style="list-style-type: none"> • German Income Tax • German Corporate Tax • German Trade Tax • Value Added Tax 		
Additional Information	The bibliography is given in the lecture		
Responsible Faculty Member	Prof. Dr. Michael Overesch		

Modues G

Name	Game Theory and Strategic Thinking		
Module number	15103	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Ability to acquire and develop conceptions of economic theory		
Module is allocated to	Bachelor Economics: elective module within the Major subject Bachelor Business Administration, Social Sciences: elective Module within the subsidiary subject Economics Bachelor Regional Studies of East and Central Europe, Latin America, China: selectable in minor Economics Bachelor Media Sciences: selectable in minor Economy and Sociology of Media and Media Management		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	Basic knowledge of microeconomics		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	Students... ...learn strategic decision making in social and economic contexts, on the basis of various examples, in particular in the context of markets and firms. ...learn formal methods for the analysis of strategic interactions. ...apply the acquired knowledge to practical problems. ...model strategic situations and develop solutions using microeconomic and game theoretical concepts. ...transfer the acquired theoretical and methodological skills to challenges in social and economic interactions.		
Contents	<ul style="list-style-type: none"> • Concepts of game theory and strategic decision making in social and economic contexts 		
Information about Teaching and Learning Methods	Students may earn bonus points in the course of the lecture and the exercise class. These bonus points may have an influence on the final grade.		
Additional Information	The course takes place on a weekly basis during the whole term. Recommended readings will be announced at the beginning of and during the term.		
Responsible Faculty Member	Univ.-Prof. Dr. Axel Ockenfels		

Name	Global Governance and International Relations		
Module number	05206	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	150 h
Module is allocated to	Bachelor Social Sciences: elective module within the main subject Social Sciences - Group Integrative Social Sciences - Subgroup Governance and International Relations		
Examination Requirements	RE, HA, so		
Courses	seminar		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Thomas Jäger		

Name	Governance und Internationale Beziehungen - Die Perspektive der Wirtschaftsgeographie		
Module number	05205	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	150 h
Qualifications	Application-oriented and multidisciplinary preparation for activities in economy, administration, organisations, associations and media in a German, European and international environment.		
Module is allocated to	Bachelor Social Sciences: elective module within the main subject Social Sciences - Group Integrative Social Sciences - Subgroup Governance and International Relations		
Examination Requirements	RE, HA		
Information about Examination Requirements	Presentation (making up 30% of the final mark) and paper (making up 70% of the final mark)		
Recommended Prior Knowledge	32 credit points in the main subject Social Sciences Methods of Social Sciences and related areas.		
Courses	seminar		
Language	English		
Learning Objectives	<p>Students...</p> <p>...analyse site-specific processes of decision-making in an international, transnational and supranational context.</p> <p>...identify different international management types and effectiveness of regional processes.</p> <p>...establish a connection between different subjects and disciplines at a specific, theoretical, methodological and empirical level.</p>		
Contents	<ul style="list-style-type: none"> • Locations and regions of world economy; • Approaches and perspectives of the Economic and Social Geography; • Regional structures, institutions and actors operating on an international, transnational and supranational level of decision-making; • Current issues related to regional development in Europe 		
Information about Teaching and Learning Methods	Students actively participate in the seminar, discussion after the presentations		
Additional Information	Required reading will be announced at the beginning of the term		
Responsible Faculty Member	Prof. Dr. Martina Fuchs		

Name	Growth and Employment		
Module number	08008	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Consulting and work in private and public institutions. Work in the field of media and in research institutes.		
Module is allocated to	Bachelor Economics: elective module within the main subject Economics Bachelor Business Administration, Social Sciences: elective module within the subsidiary subject Economics Bachelor Regional Studies of East and Central Europe, Latin America, China: elective module within the subsidiary subject Economics		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	Grundzüge der Mikroökonomik / Introductory Microeconomics Grundzüge der Makroökonomik / Introductory Macroeconomics		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...explain the fundamental empirical facts of economic growth, employment and unemployment. ...define and sort these empirical results with the help of modern real economic theories in terms of economic growth, employment and unemployment. ...analyze the correlation between productivity growth, development of labor time and sectoral employment. ...analyze the correlation between productivity growth and continuing unemployment ...make references to growth policy and employment policy and discuss economic policy measures		
Contents	<ul style="list-style-type: none"> • stylized facts with regard to economic growth and employment • the neo-classical growth model • endogenous growth • growth at endogenous labor supply • growth, sectoral change and employment • growth and unemployment (minimum wages, agreed wages, efficiency wages, frictional unemployment) 		
Additional Information	Additional Information will be provided in the semester.		
Responsible Faculty Member	Univ.-Prof. Dr. Peter Funk, Univ.-Prof. Helge Braun, Ph.D.

Responsible Faculty Member	Prof. Dr. Detlef Schoder		

Name	Information Systems Quality		
Module number	75601	Workload	360 h
Credit Points	12	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	300 h
Qualifications	Plan, monitor, perform, and evaluate quality assurance activities within the development of information systems		
Module is allocated to	B.Sc. Information Systems: compulsory module within the specialisation Quality of Information Systems		
Examination Requirements	KL, so, MP		
Information about Examination Requirements	Written exam lasting 90 minutes or oral exam or Combination of written exam lasting 90 minutes or oral exam and presentation		
Recommended Prior Knowledge	none		
Courses	practice, seminar, lecture		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>... understand the economic significance of information systems' quality.</p> <p>... understand the relevance of requirements engineering for satisfying quality expectations of the most important stakeholders.</p> <p>... acquire broad knowledge in methods of constructive and analytical quality assurance.</p> <p>... are aware of tasks and challenges of quality assurance management.</p> <p>... gather experience in searching, interpreting, systemizing, writing, and presenting literature for a scientific paper on a well-defined subject.</p> <p>... gather experience in the disputation of their presentation and in the critical discussion of their fellow students' papers.</p>		
Contents	<ul style="list-style-type: none"> • Economic significance of quality • Requirements and requirements engineering • Stakeholders of a system • Quality models • Testing methods • Quality assurance management • Current topics in information systems / business informatics 		
Information about Teaching and Learning Methods	Exercises require autonomous preparation of contents from required readings. The seminar consists of presentations and their discussion. The presentations are prepared under guidance as written papers.		
Additional Information	Required readings and the current topics will be announced each term. The number of course participants can eventually be limited.		
Responsible Faculty Member	Prof. Dr. Ali Sunyaev		

Name	Information Systems in Practice: Internship with scientific Guidance		
Module number	71201	Workload	240 h
Credit Points	8	Recurrence Frequency	irregular
Attendance	0 h	Independent Studies	240 h
Module is allocated to	Bachelor Information Systems: elective module within the subject area Business Administration		
Examination Requirements	HA		
Courses	internship		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...learn to cope with the company context.</p> <p>...implement appropriate instruments to accomplish the assigned tasks and adjust the implementation with the context.</p> <p>...reflect their success/progress during the task fulfillment and adjust the instruments and working methods if necessary.</p> <p>...process and describe their practical experiences in a structured way.</p>		
Contents	<ul style="list-style-type: none"> • In the run-up to the internship the students should contact one of the three Information Systems Departments to agree about the contents of the internship. • An internship report has to be written at the end of the internship, which will be basis for the assessment. 		
Additional Information	The internship should not take place before the third term.		
Responsible Faculty Member	Prof. Dr. Werner Mellis, Prof. Dr. Detlef Schoder		

Name	Integrated Information Systems		
Module number	71104	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Knowledge and understanding of ERP system acquisition, evaluation and use		
Module is allocated to	Bachelor Information Systems: compulsory module Bachelor Business Administration, Economics, Social Sciences, Health Economics: elective module within the specialisation Information Systems – Management		
Examination Requirements	KL (90), so, MP (20)		
Information about Examination Requirements	Written exam lasting 90 min or oral exam or a combination of a written exam lasting 90 min or an oral exam and activities during the exercise/tests/projects		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...gain deeper insights into application areas and potential of integrated information systems. ...understand problems and implications of the implementation process. ...learn about acquisition, evaluation and use of integrated information systems.		
Contents	<ul style="list-style-type: none"> • Integrated Information Systems • Strategic Management of Information Systems • Business Process Reengineering • Enterprise Resource Planning (ERP) • ERP Life Cycle • Supply Chain Management • Service Oriented Architecture (SOA) • Enterprise Architecture Management 		
Information about Teaching and Learning Methods	Selected readings have to be prepared beforehand, and the degree to which students have accomplished this preliminary work is subject to examination. During classes, students will work on case studies and solve problems in groups, to be presented to the fellow students. The presented solutions will be analysed and discussed in the plenum.		
Additional Information	Required reading will be announced every term.		
Responsible Faculty Member	Prof. Dr. Detlef Schoder		

Name	International Accounting and Taxation		
Module number	19601	Workload	360 h
Credit Points	12	Recurrence Frequency	irregular
Attendance	90 h	Independent Studies	270 h
Qualifications	Applications oriented knowledge of financial statement analysis and security valuation. Comprehension of fundamental structural components of (income) tax systems. Application to international transactions from a German company and individual perspective.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Information Systems: compulsory module within the specialisation International Accounting and Taxation		
Examination Requirements	KL		
Courses	tutorial, lecture		
Language	English		
Learning Objectives	Students... ...acquaint themselves with important technical terms in English language. ...learn to use relevant legal sources (laws, international treaties, accounting standards). ...discuss tax avoidance schemes and the prescriptions established to impede those schemes. ...are able to identify and analyze structural elements of most tax systems. ...evaluate the tax consequences of international economic activities of individuals and companies. ...get to know the reasons for international double taxation and learn basic methods that provide relief from double taxation ...apply the acquired knowledge to selected practical case studies. ...analyze business models with the help of financial statements from an investor perspective. ...forecast pro-forma financial statements. ...apply accounting oriented valuation-methods to evaluate companies, business units and strategic projects. ...scrutinize the performance and limits of simplifying business valuation models.		
Contents	<ul style="list-style-type: none"> • Connecting factors for tax liability • Determination of (corporate) income tax basis • Anti-avoidance rules • Purpose and structure of double tax treaties • Financial statement and strategy analysis • Business valuation • Case studies 		
Additional Information	Required readings will be announced at the beginning of the term.

Responsible Faculty Member	Prof. Dr. Bernadette Dilger		

Name	Introduction to Empirical Research Methods of Social Sciences		
Module number	06001	Workload	120 h
Credit Points	4	Recurrence Frequency	every winter term
Attendance	30 h	Independent Studies	90 h
Qualifications	The course delivers an overview of different methods of data collection and research designs and covers the empirical research process.		
Module is allocated to	<p>Bachelor Social Sciences: required subject within the Methods of the Social Sciences</p> <p>Bachelor Macroeconomics: elective module within minor Social Sciences, group Sociology</p> <p>Bachelor Business Administration, Macroeconomics, Health Economics: elective module within profile group</p> <p>Bachelor Health Economics: optional within the subject Methods</p> <p>Bachelor Regional Studies: mandatory within Methods of the Social Sciences</p> <p>Bachelor Media Science: compulsory optional subject in economy and sociology of media and media management</p>		
Examination Requirements	KL (60)		
Courses	lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...know the aims and methods of empirical social research.</p> <p>...acquire basic knowledge of measurement, operationalization and scaling of variables.</p> <p>...are familiar with tests of reliability und validity of measurements.</p> <p>...are able to distinguish different scale levels as well as their implications for data analysis and interpretation.</p> <p>...learn different techniques of data collection and their application.</p> <p>...are able to distinguish between reactive and non-reactive methods and to assess their application critically.</p> <p>...know the advantages and disadvantages of different methods of data collection, e.g. personal interviews, telephone interviews and written interviews, observation, experiments and content analysis.</p> <p>...learn basic rules for questionnaire design, the design of instruments for data collection and the wording of survey questions.</p> <p>...are familiar with common research designs.</p> <p>...acquire basic competences for the analysis, interpretation and presentation of data.</p>		
Contents	<ul style="list-style-type: none"> • Aims, problems and applications of empirical social research • Process of empirical research, single steps in the research process • Variables, hypothesis, theories • Basics of measurement and scaling, scale levels, validity and reliability • Research designs: cross-sectional studies, trend studies and panel studies • Experimental and quasi-experimental designs 		

	<ul style="list-style-type: none"> • Sampling procedure: sample types, confidence intervals • Surveys: personal, telephone and written interviews • Observation: qualitative, quantitative structured, participative and non-participative • Qualitative data collection • Non-reactive methods of data collection • Examples for analysis and interpretation of data of the social science
Information about Teaching and Learning Methods	Facultative tutorials might be offered. Attendance is advised as part of self-structured academic studies
Additional Information	Registration for this course ensues via KLIPS. Registration for the written examination has to be directed at the respective examination office. Required readings will be announced at the beginning of the term.
Responsible Faculty Member	Prof. Dr. Karsten Hank

Name	Introduction to International Relations		
Module number	05007	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	150 h
Module is allocated to	<p>Bachelor Social Sciences: Elective module within the main subject Social Sciences - group Political Sciences</p> <p>Bachelor Economics: Elective module within the subsidiary subject Social Sciences - group Political Sciences</p> <p>Bachelor Business Administration, Economics, Health Economics: Elective module within the specialisation Political Sciences</p> <p>Bachelor Regional Studies East and Middel Europe, Latin America, China: Elective module within the specialisation Social Sciences</p> <p>BA LA: Unterrichtsfach Sozialwissenschaften: Wahl im Schwerpunktstudium BA LA: Unterrichtsfach Politik: Pflicht im Schwerpunktstudium</p>

Name	Introduction to Statistics for Social Sciences and CUDA A		
Module number	06303	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	75 h	Independent Studies	165 h
Qualifications	Basic knowledge in data collection and data analysis in the social sciences Practical skills in computer-assisted data analysis		
Module is allocated to	Bachelor Social Sciences: Elective module within the methods area Bachelor Regional Studies East and Middle Europe, Latin America: Elective module within the main subjects Economics and Social Sciences Bachelor Media Sciences: Elective module within the main subject Economy and Sociology of the Media BA LA: Unterrichtsfach Politik: Wahl im Erweiterten Basisstudium		
Examination Requirements	KL (90), so		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...recognize aims and techniques of empirical social research, ...learn the basics of measurement, operationalization, and scale types for variables, ...sketch tests regarding the reliability and validity of measures, ...differentiate between various scale types and their meaning for interpreting and analysing data, ...name different techniques of data collection and their use, ...compare reactive and non-reactive techniques and critically evaluate their use, ...realize the pros and cons of different techniques of data collection, ...lay down rules for creating surveys and survey questions, ...identify basic research designs, ...improve their knowledge in the analysis, interpretation, and depiction of data.		
Contents	<ul style="list-style-type: none"> • Analysis of one-dimensional data • Analysis of two-dimensional data • Parameters • Time series • Probabilities • Random variables • Samples • Estimation and Testing • Use of statistical software 		
Information about Teaching and Learning Methods	Lecture with weekly exercises Registration for CUDA A through KLIPS is necessary. Attending tutorials is voluntary but is recommended as part of structured learning.		
Additional Information	Enrolling for class (lecture, exercise, CUDA) is possible solely through KLIPS. The respective examination office (Prüfungsamt) is responsible for exam registration.		
Responsible Faculty Member	Prof. Dr. Marita Jacob		

Name	Introduction to Theoretical Computer Science		
Module number	72108	Workload	270 h
Credit Points	9	Recurrence Frequency	every winter term
Attendance	90 h	Independent Studies	180 h
Qualifications	Understanding of the theoretical foundations of computer science		
Module is allocated to	B.Sc. Information Systems: Compulsory Module within the specialisation Theoretical Computer Science		
Examination Requirements	KL, so, MP		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...Participants will be able to model problems with the help of automata and grammars and to classify them according to computability or computational complexity.</p> <p>...Theoretical Computer Science is not only the</p> <p>...basis of theoretical but also of all other subjects of Computer Science.</p>		
Contents	<ul style="list-style-type: none"> • The course teaches the theoretical foundations of computer science • covering formal languages, computability and complexity. • The basic • knowledge in this area earned in „Foundations of Computer Science 2“ • will be deepened. • Further, a selection of randomized and online • algorithms as well as approximation algorithms will be considered and • analyzed. 		
Information about Teaching and Learning Methods	Successful learning and understanding of the contents of this course cannot be achieved by attendance and theoretical considerations only. Hence, the attendance and self-responsible preparation of the exercises is mandatory		
Additional Information	Depending on the course of studies, the participants may earn 5 or 9 CP		
Responsible Faculty Member	Institut für Informatik		

Name	Introduction to psychology		
Module number	52001	Workload	240 h
Credit Points	8	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	180 h
Module is allocated to	Bachelor Social Sciences: elective module within the subsidiary subject Social Psychology Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Economic Psychology Bachelor Regional Studies East and Central Europe, Latin America: elective module within the subsidiary subject Social Sciences		
Examination Requirements	KL (60)		
Courses	lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Univ.-Prof. Dr. Detlef Fetchenhauer, Prof. Erik Hölzl		

Name	Introductory Microeconomics		
Module number	02003	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	90 h	Independent Studies	150 h
Qualifications	All fields, in which an analysis of basic economic problems is needed.		
Module is allocated to	Bachelor Economics: compulsory within main subject Economics Bachelor Business Administration, Social Sciences: compulsory within subsidiary subject Economics Bachelor Health Economics: elective module within the subsidiary subject Economic Basics Bachelor Information Systems: elective module within the subject area Business Administration Bachelor Regional Studies East and Central Europe, Latin America, China: elective module within the subsidiary subject Economics Bachelor Media Sciences: elective module within Economy and Sociology of Media and Media Management		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	Basic maths skills		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...understand basic microeconomic concepts. ...describe the market form of perfect competition concerning the supply of goods and market pricing. ...identify the basic principles of price formation in monopoly and oligopoly. ...use formal instruments to analyze price formation in basic market structures. ...modify models to recognize deficiencies and to analyze the effects of political instruments.		
Contents	<ul style="list-style-type: none"> • Theory of household behavior and demand • Theory of firm behavior and supply • Theory of price formation 		
Information about Teaching and Learning Methods	Facultative tutorials can be offered and are recommended to attend for self study purpose.		
Additional Information	Compulsory reading will be announced at the start of every semester.		
Responsible Faculty Member	Univ.-Prof. Dr. Oliver Gürtler		

Name	Introductory Public Economics		
Module number	02002	Workload	0 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Work in institutions which deal with national and international taxation and fiscal public policy. Work in economic research institutes as well as in the field of economics journalism.		
Module is allocated to	Bachelor Economics: Elective module within the main subject Economics Bachelor Business Administration, Social Sciences: Elective module within the subsidiary subject Economics		
Examination Requirements	KL (90)		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...define purpose and methods of the subject public policy. ...analyze justifications for the interference of the state into the economy. ...identify characteristics of public goods as well as issues of their allocation and financing. ...analyze effects of various taxes on the decisions of economic agents. ...examine with the help of models how the tax burden is distributed in different tax types. ...find their own viewpoint with regard to current issues in taxation policy.		
Contents	<ul style="list-style-type: none"> • subject and methods in public policy • justification of public policy • positive theory of governance • Taxes, distribution of taxes • public and merit goods, free-rider problem • centralization versus decentralization of public policy decisions 		
Additional Information	Additional Information will be provided before the semester begins.		
Responsible Faculty Member	Univ.-Prof. Dr. Felix Bierbrauer, Dr. Michael Thöne		

Name	Investment Management		
Module number	21102	Workload	180 h
Credit Points	6	Recurrence Frequency	every second term
Attendance	60 h	Independent Studies	120 h
Qualifications	Activities in the field of investment management for private investors, institutional investors and companies.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the Specialisation Finance I and II Bachelor Health Economics, Information Systems: elective module within the Specialisation Finance		
Examination Requirements	KL (60)		
Recommended Prior Knowledge	Students should have attended the modules "Capital Investment and Financing" as well as "Financial Management".		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...analyze the investment objectives of (institutional) investors.</p> <p>...discuss the information efficiency of markets in order to choose the appropriate investment style (active vs. passive).</p> <p>...analyze the optimal portfolio selection.</p> <p>...consider chances and risks when applying these optimal portfolios.</p> <p>...discuss biases frequently observed in real-world investment decisions.</p> <p>...learn how to manage the portfolio risk.</p> <p>...evaluate the success of the investment strategies.</p> <p>...weigh up the risk and chances of using derivatives in modern risk management.</p> <p>...deepen the knowledge and techniques they have acquired in the lecture by solving applied exercises and examples of particular cases.</p> <p>...discuss about current topics in press and evaluate them in the context of the lecture.</p>		
Contents	<ul style="list-style-type: none"> • Investment objectives • Portfolio Theory • Risk Management • Investment strategies • Case studies 		
Information about Teaching and Learning Methods	The course consists of a lecture and exercises. Students are expected to prepare the problem sets before class.		
Additional Information	Required reading will be announced at the beginning of the term.		
Responsible Faculty Member	Prof. Dr. Alexander Kempf		

Modules L

Name	Labor Economics		
Module number	08009	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Qualifies students for work in areas where a basic knowledge of Labor Economics and econometric analysis is helpful (ministries, trade unions, employer associations, research institutes, companies, media).		
Module is allocated to	Bachelor Economics: elective module within the main subject Economics Bachelor Business Administration, Social Sciences: elective module within the subsidiary subject Economics Bachelor Regional Studies East and Central Europe, Latin America, China: elective module within the subsidiary subject Economics		
Examination Requirements	KL (90)		
Courses	practice, lecture		
Language	English		
Learning Objectives	Students... ...describe the functioning of the labor market. ...use microeconomic methods to examine behavior in the labor market. ...recognise and discuss the basic issues behind empirical research in labor economics.		
Contents	<ul style="list-style-type: none"> • Labor supply • Labor demand • Human capital and education • Basic empirical methods in labor economics 		
Information about Teaching and Learning Methods	Lectures and discussions		
Additional Information	Additional information will be provided at the beginning of the term.		
Responsible Faculty Member	Univ.-Prof. David Jaeger, Ph.D.		

Name	Laboratory Course on Development		
Module number	74001	Workload	420 h
Credit Points	14	Recurrence Frequency	every summer term
Attendance	45-90 h	Independent Studies	330-375 h
Module is allocated to	Bachelor Information Systems: Compulsory module within the subject Information Systems		
Examination Requirements	PR		
Courses	project		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Ali Sunyaev, Prof. Dr. Werner Mellis, Prof. Dr. Detlef Schoder		

Name	Leasing		
Module number	21103	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Application of basic knowledge of capital budgeting, finance and accounting to optimal financing questions.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: Elective module within the specialisation Finance I & II Bachelor Health Economics, Information Systems: Elective module within the specialisation Finance BA LA: Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium B – Profilgruppe Finance BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium B – Profilgruppe Finance BA LA: Kleine Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium – Profilgruppe Finance (Finanz- und Rechnungswesen)		
Examination Requirements	KL		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...get familiar with the German leasing market and the different types of leasing with their underlying contracts ...get familiar with the balance and tax implications of leasing ...get familiar with the calculation of leasing payments ...get familiar with important types of cross-border leasing ...get familiar with the determination and analysis of capital cost of leasing ...get familiar with the construction of leasing contracts for achieving an aimed outcome (balance and tax wise)		
Contents	<ul style="list-style-type: none"> • German leasing market • Leasing contracts • Leasing payments • Capital cost of leasing contracts • Balance and tax implications of leasing 		
Additional Information	Required text will be announced each term		
Responsible Faculty Member	Prof. Dr. Thomas Hartmann-Wendels		

Modules M

Name	Main Features of Economic Geography		
Module number	50101	Workload	240 h
Credit Points	8	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	180 h
Qualifications	Application-oriented and multidisciplinary preparation for activities in economy, administration, organisations, associations and media in a German, European and international environment.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: compulsory module within the specialisation Economic Geography Bachelor Regional Studies East and Central Europe, Latin America: elective module within the subsidiary subject Social Sciences Bachelor Regional Studies China: elective module within the subsidiary subject Business Administration		
Examination Requirements	KL (90)		
Alternatively	RE, HA		
Recommended Prior Knowledge	None		
Courses	excursion, practice, lecture		
Alternatively	seminar		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...analyse subnational-regional structures, institutions and actors and national and international (inter-)dependencies of locations, institutions and actors.</p> <p>...discuss problems of specific topics of socio-economic change on different spatial scales.</p> <p>...discuss recent theories and empirical case studies of regional development in the core economies and the peripheries of the global economy.</p> <p>...evaluate case studies on the background of theoretical concepts about regulation, transformation, crises and change.</p> <p>...use concepts of qualitative and quantitative regional research.</p> <p>...evaluate socio-economic development in selected regions and regional policies.</p>		
Contents	<ul style="list-style-type: none"> • Theories of regional change; • Quantitative and qualitative methods of empirical regional research; • Case studies 		
Information about Teaching and Learning Methods	e-learning support via ILIAS		
Additional Information	Required reading will be announced at the beginning of the term.		
Responsible Faculty Member	Prof. Dr. Martina Fuchs		

Name	Management of Information System Projects		
Module number	71103	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Management of information system (IS) development projects		
Module is allocated to	Bachelor Information Systems: compulsory within the module Information Systems Bachelor Business Administration, Economics, Social Sciences, Health Economics: elective within the specialisation Information Systems – Management		
Examination Requirements	KL (90), so, MP (20)		
Information about Examination Requirements	Written exam lasting 90 min or oral exam or a combination of a written exam lasting 90 min or oral exam of the final mark) and activities during the exercise/tests/projects		
Recommended Prior Knowledge	none		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...know the Information Systems (IS) development process.</p> <p>...know the phases initializing, planning and control of IS development projects.</p> <p>...are able to analyze project risks and develop and evaluate IS development project plans.</p> <p>...are aware of the importance of leadership and communication behavior and can evaluate leadership and communication patterns.</p> <p>...are able to solve simple communication problems.</p> <p>...are aware of the importance of interpersonal conflicts and know methods of how to cope with them.</p>		
Contents	<ul style="list-style-type: none"> • IS development • Alternatives of IS implementation • IS development process models • Requirements analysis • Quality management • Change management • Project management patterns • Initializing • Planning and risk management • Project control • Motivation and time pressure • Leadership and communication • Conflicts and negotiations 		
Information about Teaching and Learning Methods	In several classes, case studies and exercises will be prepared and presented in student teams. The results are discussed and analysed afterwards.		
Additional Information	Required reading will be announced each term.		
Responsible Faculty Member	Prof. Dr. Werner Mellis		

Name	Managerial Economics		
Module number	08003	Workload	180 h
Credit Points	6	Recurrence Frequency	every second term
Attendance	30 h	Independent Studies	150 h
Qualifications	Strategic consultant for private and public entities. Fellow at research institutes.		
Module is allocated to	Bachelor Economics, Business Administration, Social Sciences, Health Economics: Elective Module within the specialisation Managerial Economics		
Examination Requirements	KL		
Recommended Prior Knowledge	none		
Courses	lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...Students</p> <p>...analyze optimal price politics in different market situations.</p> <p>...analyze the incentives which market frictions create for the economic actors.</p> <p>...evaluate alternative market institutions with regard to strategic incentives.</p> <p>...apply formal methods to solve problems.</p> <p>...model strategic situations and develop solutions by using microeconomic and game theoretical concepts.</p> <p>...transfer their theoretical and formal knowledge to specific problems in firms and markets.</p>		
Contents	<ul style="list-style-type: none"> • Analysis of oligopolistic behavior • Price politics • Market institutions • Microeconomic and game theoretical concepts 		
Information about Teaching and Learning Methods	-		
Additional Information	Recommended readings will be announced at the beginning of the term.		
Responsible Faculty Member	Univ.-Prof. Dr. Patrick W. Schmitz		

Name	Managing Organizations and Supply Chains		
Module number	27101	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Support and consulting of executive management.		
Module is allocated to	<p>Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Supply Chain Management</p> <p>Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Media Management</p> <p>Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Corporate Development, Organisation and Human Resources</p> <p>Bachelor Media Sciences: compulsory module within the subsidiary subject Media Management</p> <p>BA LA: Berufliche Fachrichtung Wirtschafts: Wahl im Schwerpunktstudium B - Profilgruppe SCM</p> <p>BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium B - Profilgruppe SCM</p> <p>BA LA: Kleine Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium B - Profilgruppe SCM (Produktion, Logistik, Absatz)</p> <p>BA LA: Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium B - Profilgruppe Unternehmensführung, Organisation und Personal</p> <p>BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium B - Profilgruppe Unternehmensführung, Organisation und Personal</p>		
Examination Requirements	HA		
Information about Examination Requirements	Written exam lasting 60 min or paper, or both (then each making up 50% of the final mark)		
Recommended Prior Knowledge	It is assumed that students are familiar with the module Business Policy and International Management.		
Courses	practice, lecture		
Language	English		
Learning Objectives	<p>Students...</p> <p>...figure out the fundamental problems and challenges of coordinating interdependent tasks in organizations and supply chains,</p> <p>...identify theories and tools to analyze and assess existing and available design options of such arrangements,</p> <p>...apply these theories and tools to real world organizations and derive management recommendations,</p> <p>...autonomously structure and coherently communicate their analyses and recommendations verbally in team presentations and/or written reports."</p>		
Contents	<ul style="list-style-type: none"> • Basic knowledge of strategic management and organisation of value 		

	<p>added networks</p> <ul style="list-style-type: none"> • Analysis and structuring of value chains in different contexts • Current challenges of the management of global value: alliances, electronic commerce and business ethics
Information about Teaching and Learning Methods	The course will include tutorials and workshops to learn how to deal with cases and how to write scientific papers.
Additional Information	<p>The courses of this module will be hold only in the first or in the second half of the semester. More information will be given at the beginning of the term in ILIAS/KLIPS.</p> <p>Required reading will be announced at the beginning of the term.</p>
Responsible Faculty Member	Prof. Dr. Dr. h.c. Werner Delfmann, Dr. Sascha Albers

Name	Marketing		
Module number	01003	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Management positions in marketing and sales of manufacturing-, retailing-, and service-companies.		
Module is allocated to	Bachelor Business Administration: elective module within the major subject Bachelor Economics, Social Sciences, Information Systems: elective module within the subsidiary subject Business Administration Bachelor Health Economics: elective module within the subsidiary subject economic foundations		
Examination Requirements	KL (60)		
Recommended Prior Knowledge	The content of the modules Mathematics, Statistics A and Statistics B is recommended.		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...analyse the role of marketing for companies. ...describe and apply methods to analyze the company's marketing environment including customer behavior and conduct market research. ...analyse and apply approaches to marketing planning. ...evaluate marketing strategies and marketing mix decisions. ...systematise marketing mix activities and describe theories and methods to design optimal marketing mix activities.		
Contents	<ul style="list-style-type: none"> • Meaning of marketing • Customer behavior • Market research • Marketing strategy • Marketing mix activities 		
Information about Teaching and Learning Methods	The pedagogy of the course will entail both conceptual and applied elements, including brief case studies, discussions in class, and a self-dependent study of required readings to complement the lecture and tutorials. Facultative tutorials can be offered and are recommended to attend for self study purpose		
Additional Information	The courses and exams of this module will potentially be hold only in the first or in the second half of the semester (see KLIPS). Required readings will be announced in class.		
Responsible Faculty Member	Prof. Dr. Franziska Völckner		

Name	Mathematical Methods		
Module number	02001	Workload	120 h
Credit Points	4	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	60 h
Qualifications	Basic mathematical methods of economic analysis		
Module is allocated to	<p>Bachelor Business Administration, Economics: Compulsory module within methods area</p> <p>Bachelor Regional Studies East and Middle Europe, Latin America: Compulsory module within subject Economics</p> <p>Bachelor Regional Studies China: Compulsory module within subject Business Administration</p> <p>Bachelor Media Sciences: Compulsory module within subject Media Management</p> <p>BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Pflicht im erweiterten Basisstudium</p>		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	Students should participate in the optional course "Vorkurs zu Mathematische Methoden", if they need a repetition of elementary mathematics.		
Courses	practice, tutorial, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...know basic mathematical methods.</p> <p>...apply mathematical methods and interpret the results.</p> <p>...decide which mathematical method is appropriate to deal with a concrete economic problem.</p>		
Contents	<ul style="list-style-type: none"> • Functions of one and several variables • Differential calculus for functions of several variables and their economic applications • Unconstrained and constrained optimization of functions of several variables • Integral calculus and differential equations • Matrix algebra and linear equations 		
Information about Teaching and Learning Methods	Lectures with weekly exercises. There may be also optional tutorials whose attendance is recommended as part of structured self-study.		
Additional Information	Required reading: Mosler, Dyckerhoff, Scheicher, Mathematische Methoden für Ökonomen		
Responsible Faculty Member	Univ.-Prof. Dr. Karl Mosler, Dr. Christoph Scheicher		

Name	Mathematics		
Module number	73006	Workload	270 h
Credit Points	9	Recurrence Frequency	every winter term
Attendance	90 h	Independent Studies	180 h
Module is allocated to	Bachelor Information Systems: Elective module within Mathematics area		
Examination Requirements	KL(180)		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...

Name	Media Institutions		
Module number	15038	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	knowledge of institutions and regulations in media markets		
Module is allocated to	<p>Bachelor Business Administration, Economics, Social Sciences: Compulsory within the specialisation "Medienwirtschaft"</p> <p>Bachelor Media Sciences: Compulsory within the subject Economy and Sociology of the Media</p> <p>BA LA: Kleine Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl Im Schwerpunktstudium – Profilgruppe Medien (Sektorales Management)</p>		
Examination Requirements	KL		
Recommended Prior Knowledge	basic knowledge of microeconomics		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...realize how microeconomic models can contribute to solving problems in media markets.</p> <p>...reconsider different forms of media financing.</p> <p>...realize the importance of diversity of opinion in society.</p> <p>...analyze the impact of market frictions.</p> <p>...apply their theoretical knowledge to concrete issues that come up in media markets.</p> <p>...develop own positions regarding issues in media politics.</p> <p>...enhance their analytical skills.</p>		
Contents	<ul style="list-style-type: none"> • microeconomics and media institutions • media financing • impact of market frictions 		
Additional Information	The course will take place every week during the lecture period. Required reading will be announced at the beginning of the term.		
Responsible Faculty Member	Univ.-Prof. Dr. Johannes Münster		

Name	Medical Terminology for Health Professionals		
Module number	83001	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	This comprehensive survey course gives students of Health Economics and Health Services Research the strong scientific foundation they need in various aspects of medical terminology.		
Module is allocated to	Bachelor Health Economics: Compulsory within methods area		
Examination Requirements	KL (60)		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...are introduced to the basics of anatomical language and clinical parlance, using word parts (roots, combining forms, prefixes and suffixes) in an easy-to-grasp modular form.</p> <p>...11 use the highly effective systems approach, typing medical terms directly to the functional anatomy of various body systems. Technical terms for symptoms, syndromes, diseases, diagnostics and interventions are presented in detail referring painstakingly to medical and linguistic contexts. Thus students acquire the vocabulary of the musculoskeletal, cardiovascular and lymphatic, respiratory and digestive as well as the urinary and reproductive, nervous and endocrine system.</p> <p>...provide supplemental information – case histories and hospitals records, excerpts from textbooks, papers, dictionaries, and online-databases – rounding out the students' medical and pharmaceutical vocabulary.</p>		
Responsible Faculty Member	Prof. Dr. Axel Karenberg

Name	Methods of Marketing Mix Management		
Module number	24106	Workload	180 h
Credit Points	6	Recurrence Frequency	every second to fourth term
Attendance	60 h	Independent Studies	120 h
Qualifications	Management activities in marketing and sales in manufacturing, retailing, and service companies; management activities in market research companies		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: compulsory module within the specialisation Marketing Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Media Management		
Examination Requirements	KL		
Information about Examination Requirements	Written exam lasting 60 min. (+ 10 min. for reading) Mid-term-exam possible		
Courses	practice, lecture		
Language	English		
Learning Objectives	Students... ...design and implement market research projects ...evaluate different sampling methods ... discuss different ways to measure theoretical marketing constructs ...design questionnaires ...discuss and evaluate different data collection methods ...get to know the basis concepts of hypothesis testing ...apply the multivariate methods to support marketing-mix decisions (e.g., regression analysis, cluster analysis)		
Contents	<ul style="list-style-type: none"> • Design of market research projects • Sampling fundamentals and data collection methods • Measurement and designing a market research questionnaire • Univariate and bivariate analyses • Applied multivariate analyses to marketing-mix decision problems (regression analysis, conjoint analysis, segmentation analysis) 		
Additional Information	Block courses are possible. The course is complemented by regular guest lectures. Required and voluntary reading will be announced for every term in KLIPS.		
Responsible Faculty Member	Prof. Dr. Marc Fischer		

Name	Monetary Theory and Policy		
Module number	08007	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Work in research institutes, commercial banks, interest groups, media, governmental departments, insurance companies, central banks.		
Module is allocated to	<p>Bachelor Economics: Elective module within main subject Economics</p> <p>Bachelor Business Administration, Social Sciences: Elective module within subsidiary subject Economics</p> <p>Bachelor Regional Studies East and Middle Europe, Latin America, China: Elective module within subject Economics</p>		
Examination Requirements	KL (90)		
Recommended Prior Knowledge	<p>Grundzüge der Mikroökonomik/ Introductory Microeconomics</p> <p>Grundzüge der Makroökonomik/ Introductory Macroeconomics</p>		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...will describe empirical regularities between economic and monetary quantities</p> <p>...will explain these regularities by means of basic monetary theory models</p> <p>...develop monetary-policy recommendations from models with a high explanatory value</p> <p>...will evaluate recommendations by critically scrutinizing their preconditions.</p>		
Contents	<ul style="list-style-type: none"> • Monetary aggregates and money supply • Empirical evidence on the effects of monetary policy • Theories of money demand • Monetary policy in macroeconomic models • Optimal monetary policy and monetary policy rules 		
Information about Teaching and Learning Methods	Active learning		
Additional Information	Additional Information will be provided in the first lecture session.		
Responsible Faculty Member	Dr. AOR André Drost		

Modules O

Name	Operations Management		
Module number	01001	Workload	240 h
Credit Points	8	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	180 h
Qualifications	The ability to optimize, plan and manage processes.		
Module is allocated to	<p>Bachelor Business Administration: elective module within the major subject Business Administration</p> <p>Bachelor Economics, Social Sciences: elective module within the subsidiary subject Business Administration</p> <p>Bachelor Health Economics: elective module within the subsidiary subject Economic Basics</p> <p>Bachelor Information Systems, Regional Studies: elective module within the subject area Business Administration</p> <p>Bachelor Media Sciences: elective module within the subject area Media Management</p> <p>Bachelor for Teaching: elective module within the subject area Schwerpunktstudium A</p>		
Examination Requirements	KL (60)		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...understand basics of managing production- and service processes</p> <p>...develop and solve analytical models</p> <p>...quantify main cause-effect relationships for optimization calculations</p> <p>...apply presented methods in practical relevant exercises</p> <p>...deepen basic knowledge of Operations Management by case studies</p>		
Contents	<ul style="list-style-type: none"> • Forecasting • Facility Location • Process Design • Inventory Management • Linear Programming • Aggregated Planning • Lean Management • Supply Chain Management 		
Information about Teaching and Learning Methods	There are optional tutorials.		
Additional Information			
Responsible Faculty Member	Univ.-Prof. Dr. Ulrich W. Thonemann		

Name	Operative Trade Fair Management		
Module number	24202	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Management activities in business policy and corporate development as well as marketing in trade fair companies, trade fair service providers and exhibiting companies.		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: Elective module within specialisation Trade Fair Management		
Examination Requirements	KL, RE		
Information about Examination Requirements	Exam: 60 minutes; additionally work can be possibly included by visiting a workshop, who will add up to 15% of the overall grade.		
Recommended Prior Knowledge	None		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...classify the actors of the trade fair industry and analyze the interdependencies; evaluate the efficiency of new trade fair concepts; discuss the challenges of trade fair logistics as a network of heterogeneous actors; evaluate customer relationship management from a trade fair company's point of view; identify decision problems of pricing and discuss pricing possibilities of trade fair companies; discuss the crucial factors influencing the make or buy decision of trade fair companies regarding additional services.		
Contents	<ul style="list-style-type: none"> Trade fair logistics; booth design and construction; pricing; customer relationship management; brand management and services of trade fair companies 		
Information about Teaching and Learning Methods	Discussions; workshops; presentations by students; field trips; several guest speakers		
Responsible Faculty Member	Prof. Dr. Franziska Völckner, Prof. Dr. Dr. h.c. Werner Delfmann, Feriha Zingal, Stefanie Dorn

Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Prof. Dr. Mark Ebers		

Name	Organizational Psychology		
Module number	52008	Workload	120 h
Credit Points	4	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	90 h
Qualifications	Occupations in management consulting and in human resources departments, ability to evaluate consulting offers		
Module is allocated to	Bachelor Social Sciences: elective module within the subsidiary subject Social Psychology Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Economic Psychology Bachelor Regional Studies Latin America: elective module within the subsidiary subject Social Sciences		
Examination Requirements	KL (60)		
Courses	lecture		
Language	English		
Learning Objectives	Students... ...know fundamental theories in organizational psychology. ...know empirical methods and findings in the area of organizational psychology. ...are able to apply psychological theories to current topics in organizations (e.g., human resources, leadership).		
Contents	<ul style="list-style-type: none"> Theories and empirical findings in organizational psychology, e.g., teams, conflict resolution, leadership, motivation 		
Additional Information	Required reading will be announced in the introductory session.		
Responsible Faculty Member	Univ.-Prof. Dr. Detlef Fetchenhauer, Prof. Erik Hölzl		

Modules P

Name	Philosophy of Science		
Module number	13007	Workload	240 h
Credit Points	8	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	180 h
Qualifications	Analysis and evaluation of scientific work		
Module is allocated to	Bachelor Social Sciences: elective course within the major subject empirical social research		
Examination Requirements	KL (90), so		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...know the basic rules of logical reasoning, conceptual forms and types of scales as well as rules of scientific definitions and operationalization.</p> <p>...describe terms and forms of hypotheses and theories in the Social Sciences as well as the relationship between theory- and type-development.</p> <p>...know types of social scientific explanations, simple syllogisms and the basics of hypothesis testing.</p> <p>...analyze multilevel and normative fallacies in the social sciences and their methodological problematic implications.</p> <p>...analyze methodological discussions of social scientific explanations.</p> <p>...apply basic hypothesis testing and recognize common social scientific fallacies.</p> <p>...discuss examples of normative biases and judgments.</p>		
Contents	<ul style="list-style-type: none"> • Overview and logical propaedeutic • Epistemic foundation • Conception formation and operationalization • Hypotheses and theories • Scientific explanations • Empirical tests of hypotheses and theories • Fallacies in empirical research • Dynamic of theories • Norms and normative judgments in the Social Sciences 		
Information about Teaching and Learning Methods	Lecture and tutorial with assignments, group work, presentation and discussion		
Additional Information	Registration for this course ensues via KLIPS. Registration for the written examination has to be directed at the respective examination office. Required readings will be announced at the beginning of the term.		
Responsible Faculty Member	Prof. Dr. Karsten Hank		

Name	Political Economy		
Module number	14902	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Working in the economic policy consulting field (ministries, research institutes, public institutions), media, associations, foundations		
Module is allocated to	Bachelor Economics, Bachelor Business Administration, Bachelor Social Sciences: elective module within the specialisation „Constitutional Economics and Economic Political Consulting“.		
Examination Requirements	KL, so		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...analyse the economic nature of political decision-making. ...learn to identify partial interests in the process of political decision-making ...analyse the difference between political majority and general public interest and work out the need for protection of minority in democratic systems. ...learn to design concepts which could systematically guarantee a better consideration of the individuals' interests in the political decision-making.		
Contents	<ul style="list-style-type: none"> • Rational Choice Theory • Social Choice Theory • Possible conflicts between constraints of political decisions and individuals' freedom. • Logic of Collective Action • Economic theory of political decision-making • Economic theory of bureaucracy • Economic theory of rent-seeking • Emergence and evolution of institutions in open societies (Institutions between constitution and evolution) 		
Information about Teaching and Learning Methods	Lecture and exercise sessions		
Additional Information	High demands on students' own active literature study and reflections. To attend the seminar within the Specialisation, the exam in "Theory of Economic Policy" or "Political Economy" has to be passed		
Responsible Faculty Member	Dr. Steffen J. Roth, Univ.-Prof. Achim Wambach, Ph.D.		

Name	Practical Course on Programming		
Module number	73004	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	60 h	Independent Studies	120 h
Qualifications	Strategic analysis and solution of a complex software engineering problem by design, implementation and presentation of a Java software project.		
Module is allocated to	B.Sc. Information Systems: compulsory module within the subsidiary subject Mathematics/Computer Science		
Examination Requirements	PR		
Information about Examination Requirements	The achievements to deliver consist of the developed Java program and its documentation, a detailed proof of authorship and the “milestone”-presentations held regularly during the course. An additional exam (oral or written) of thirty minutes may be required. A graded certificate of achievement will be provided.		
Recommended Prior Knowledge	Programming Course, Foundations of Computer Science 1 and 2		
Courses	lecture, internship		
Language	German		
Learning Objectives	Students... ...The participants are able to solve a given problem in a self-organizing group. This includes the analysis, partitioning, design, implementation and presentation of the software project.		
Contents	<ul style="list-style-type: none"> • problem solving as a group • specification and partitioning of software projects • interface design • implementation of a large application • documentation of the source code 		
Information about Teaching and Learning Methods	In the first weeks the project to be realized will be presented by the coordinators and there will be an assignment of participants to groups. Afterwards, the groups are responsible for the decomposition of the project into smaller tasks and the design of their interfaces with the coordinators' support. The groups meet regularly at least once a week in order to organize themselves and to discuss the state of their development. At the end of the term the entire project will be presented and evaluated.

Name	Production and Logistics		
Module number	07002	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	Management positions in production planning and logistics management.		
Module is allocated to	<p>Bachelor Business Administration: Elective module within main subject Business Administration</p> <p>Bachelor Economics, Social Sciences: Elective module within subsidiary subject Business Administration</p> <p>Bachelor Health Economics: Elective module within subsidiary subject "Wirtschaftswissenschaftliche Grundlagen"</p> <p>Bachelor Information Systems: Elective module within group Business Administration</p> <p>Bachelor Regional Studies China: Elective module within subject Business Administration</p> <p>Bachelor Media Management: Elective module within subject Media Management</p> <p>BA LA: Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium A</p> <p>BA LA: Große Berufliche Fachrichtung Wirtschaftswissenschaft: Wahl im Schwerpunktstudium A</p>		
Examination Requirements	KL (60)		
Courses	practice, lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...analyze planning problems in production and logistics,</p> <p>...describe existing interdependencies between the decisions,</p> <p>...model practical problems in production and logistics,</p> <p>...develop proposals for their solution.</p>		
Contents	<ul style="list-style-type: none"> • Basic topics of production and logistics • Design of the infrastructure of production systems • Elements of production planning and control • Logistic Processes • Structure of ERP-/MRP-/APS-Systems 		
Information about Teaching and Learning Methods	Facultative tutorials can be offered and are recommended to attend for self study purpose.		
Additional Information	<p>Reading: Hans-Otto Günther and Horst Tempelmeier, Produktion und Logistik, (Springer, Berlin).</p> <p>The courses and exams of this module will potentially be hold only in the first or in the second half of the semester (see KLIPS).</p>		
Responsible Faculty Member	Prof. Dr. Horst Tempelmeier		

Name	Programming course (6 CP)		
Module number	73005	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	60 h	Independent Studies	120 h
Qualifications	Background and application knowledge about object-oriented programming		
Module is allocated to	B.Sc. Information Systems: compulsory module within the subsidiary subject Mathematics/Computer Science		
Examination Requirements	KL (60), so		
Information about Examination Requirements	The examination takes place in written form and lasts one or two hours. A graded certificate of achievement will be provided. The regular and successful preparation of exercises may be a requirement for the admission of participants to the exam if this is explicitly announced. Similarly, it may be declared to contribute to the examination.		
Courses	practice, lecture		
Language	German		
Learning Objectives	Students... ...The participants are able to analyse, develop and use simple Java applications. They know how to work with Java's standard libraries in order to solve given basic exercises by implementing according Java programs.		
Contents	<ul style="list-style-type: none"> The course starts with a general introduction to development environments and the Java programming language. The main part deals with the fundamental concepts of "data types, statements and control flow", "classes and objects", "object-oriented design and implementation", "Java's libraries" and "debugging". During the course several small programs will be presented. 		
Information about Teaching and Learning Methods	Successful learning and understanding of the contents of this course cannot be achieved by attendance and theoretical considerations only. Hence, the attendance and self-responsible preparation of the exercises is mandatory.		
Additional Information	Depending on the course of studies, the participants may earn 3 or 6 CP.		
Responsible Faculty Member	Institut für Informatik

Attendance	30 h	Independent Studies	90 h
Qualifications	Occupations in market research companies as well as in marketing departments of companies.		
Module is allocated to	Bachelor Social Sciences: elective module within the subsidiary subject Social Psychology Bachelor Business Administration, Economics, Social Sciences, Health Economics, Information Systems: elective module within the specialisation Economic Psychology		
Examination Requirements	KL (60)		
Courses	lecture		
Language	English		
Learning Objectives	Students... ...know psychological theories relevant for marketing and advertising ...know empirical methods and findings on psychological aspects of marketing and advertising ...are able to apply psychological theories to current topics in marketing and advertising		
Contents	<ul style="list-style-type: none"> Theories and empirical findings in psychology of marketing and advertising, e.g., impulse buying, emotional branding, personal selling 		
Additional Information	Required reading will be announced in the introductory session.		
Responsible Faculty Member	Univ.-Prof. Dr. Detlef Fetchenhauer, Prof. Erik Hölzl		

Name	Psychology of religion, faith and superstition		
Module number	05211	Workload	180 h
Credit Points	6	Recurrence Frequency	every second term
Attendance	30 h	Independent Studies	150 h
Module is allocated to	Bachelor Social Sciences: Elective module within main subject Social Sciences - Group Integrative Social Sciences - Subgroup Culture and Religion		
Examination Requirements	KL, RE, HA		
Recommended Prior Knowledge	None		
Courses	seminar		
Language	German		
Learning Objectives	Students... ...		
Responsible Faculty Member	Univ.-Prof. Dr. Detlef Fetchenhauer, Prof. Erik Hölzl		

Name	Public Economics		
Module number	00000	Workload	360 h
Credit Points	12	Recurrence Frequency	every term
Attendance	90 h	Independent Studies	270 h
Module is allocated to	BA BWL, VWL, SOWI: Wahl im WB in der Profilgruppe Public Economics		
Examination Requirements	KL (60), RE, HA		
Courses	practice, seminar, lecture		
Language	German or English		
Learning Objectives	Students... ...		
Responsible Faculty Member	Dr. Michael Thöne		

Modules Q

Name	Qualitative Methods: Logic and Qualitative Research		
Module number	06301	Workload	240 h
Credit Points	8	Recurrence Frequency	every term
Attendance	60 h	Independent Studies	180 h
Qualifications	information, consulting and analysis in the media and in political institutions		
Module is allocated to	Bachelor Social Sciences: Elective module within the methods area Bachelor Regional Studies East and Middle Europe, Latin America: Elective module within the subject Social Sciences Bachelor Media Studies: Elective module within the subject Economy and Sociology of the Media BA LA: Unterrichtsfach Politik: Wahl im Erweiterten Basisstudium		
Examination Requirements	KL (60), RE		
Courses	practice, lecture		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...learn how to deal with the relationship between logical conceptualisation, judgment and argumentation.</p> <p>...apply the methods of formal logical analysis to the field of qualitative studies.</p> <p>...use the knowledge of formal logic for systematically capturing and structuring the objects of empirical investigation.</p> <p>...make these insights available for carrying out a qualitative research project, in particular for studies focusing on a small number of cases (small-N research designs).</p> <p>...carry out research on a small number of cases and evaluate them critically.</p> <p>...learn about different approaches and methods in qualitative research.</p>		
Contents	<ul style="list-style-type: none"> • Foundations and Core Elements of formal Logic • Rules and of Logical Conceptualisation, Judgment and Inference • Logical Analysis and Qualitative Studies • Qualitative Studies in Small-N Designs • Qualitative Methods in Research 		
Information about Teaching and Learning Methods	E-Learning platform available; tutorials may be offered which serve to structure the student's independent studies		
Additional Information	Course Material will be offered on the E-Learning Platform ILIAS (www.ilias.uni-koeln.de)		
Responsible Faculty Member	Prof. Dr. Wolfgang Leidhold		

Name	Quality Assurance and Quality Management		
Module number	86001	Workload	180 h
Credit Points	6	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	150 h
Qualifications	Activity areas in which technologies and procedures must be controlled to define quality and risks in health care, and to evaluate different aspects of quality		
Module is allocated to	Bachelor Health Economics: Compulsory module within the subject Health-economic and medical Bases		
Examination Requirements	KL (60)		
Recommended Prior Knowledge	Health Care System		
Courses	lecture		
Language	German		
Learning Objectives	<p>Students...</p> <p>...identify the health-political background of the quality management and risk management.</p> <p>...recapitulate the system and the nomenclature of the areas of quality assurance, quality management and risk management.</p> <p>...arrange quality management and risk management in the current organization-theoretical schools.</p> <p>...apply the technology of the process analysis</p> <p>...discuss concepts to the management control as well as to the public representation of quality and risks.</p> <p>...apply aims and identification number concepts for representing quality and risks. discuss the implementation of quality management and risk management in the institutional area.</p>		
Contents	<ul style="list-style-type: none"> • Quality and risk management • Technologies of the process analysis • Aim definition, identification number development, measurement and representation of quality and risks • Public representation of quality and risks of the health care • Certification • Sector-covering case studies 		
Information about Teaching and Learning Methods	The lecture is complemented with concrete case studies. Developing solutions and strengthening key competence are promoted. The materials are provided via ilias.		
Additional Information	Literature is made available when required.		
Responsible Faculty Member	PD Dr. med. Stephanie Stock, Jun.-Prof. Dr. Juliane Köberlein-Neu		

Modules R

Name	Recent developments in media economics		
Module number	15203	Workload	180 h
Credit Points	6	Recurrence Frequency	every winter term
Attendance	30 h	Independent Studies	150 h
Qualifications	insights into recent developments in media economics		
Module is allocated to	Bachelor Business Administration, Economics, Social Sciences: elective module within the specialisation Media Economics		
Examination Requirements	RE, HA		
Recommended Prior Knowledge	microeconomics, media institutions		
Courses	seminar		
Language	German or English		
Learning Objectives	<p>Students...</p> <p>...realize recent developments and research questions in media markets.</p> <p>...analyze the transfer of microeconomic concepts to questions in media economics.</p> <p>...discuss regulation and competition policy in media markets.</p> <p>...design strategies for solving recent problems.</p>		
Contents	<ul style="list-style-type: none"> • recent developments and research questions in media markets • implications for regulation and competition policy 		
Additional Information	<p>The seminar can be given as block course.</p> <p>Required reading will be announced at the beginning of the term.</p>		
Responsible Faculty Member	Univ.-Prof. Dr. Johannes Münster		

Name	Regional Economics		
Module number	50012	Workload	120 h
Credit Points	4	Recurrence Frequency	every summer term
Attendance	30 h	Independent Studies	90 h
Qualifications	Analysis and consultation in Regional Economics.		
Module is allocated to	Bachelor Regional Studies East and Middle Europe, Latin America, China: Elective module in subject Social Sciences - group "Raum- und Sozialentwicklung"		
Examination Requirements	RE, HA, FS		
Recommended Prior Knowledge	None		
Courses	seminar		
Language	German		
Learning Objectives	<p>Students...</p> <p>...analyse the economic basics of a certain global region (e.g. China, Eastern- and Central Europe, Latin-America).</p> <p>...discuss problems and issues of these regions and their spatial connections theory-guided.</p> <p>...apply concepts of Economic and Social-Geography.</p> <p>...identify contemporary examples of regional development strategies.</p> <p>...evaluate the impact of regional policies.</p>		
Contents	<ul style="list-style-type: none"> • Central macroregions of the world economy (China, East- an Central Europe, Latin-America); • Trade relations and Value Chains; Selected development projects
